Rating Rationale and Key Rating Drivers

Nishat Group, through Nishat Hotels & Properties Limited, has set up a project comprising a state of the art shopping mall, a luxury hotel and banquet halls. The ratings reflect the Company's association with Nishat Group, one of the leading business conglomerates of Pakistan, and expected group support. With the mall operating at full capacity, the Company's main focus is now on increasing occupancy rates from hotel operations. Here, expansion and change in management are expected to have positive results. Although the Company maintains profitable operations, it has yet to completely turn around and generate a positive bottom-line. Financial profile remains stretched due to high leveraging, large repayments and weak coverages. Adequate financing facilities provide some cushion to meet payments in a timely manner. Increase in borrowings and rising interest rates would further suppress coverages, exerting pressure on the Company. Ratings take comfort from demonstrated group support.

Increasing cashflows from hotel operations and operating the mall at optimal capacity are imperative. Timely arrangement of financing to repay obligations is crucial. Any significant deterioration in this and/or margins leading to lower cashflows will have a negative impact on ratings. Meanwhile, given sizable leveraging and debt obligations, group support remains critical for the ratings.

Profile

Legal Structure Nishat Hotels & Properties Limited (the Company) is a public unlisted company.

Background The company was incorporated in October, 2007 and previously used to own and operate all hotel and real estate projects that come under Nishat Group. However, post 2013 the Company demerged all of its hotels into separate entities and now only manages the property located on Abdul Haque Road, Johar Town, Lahore.

Operations The Company's real estate project, more commonly known as The Emporium, comprises of a shopping mall, food court, multiplex cinema, banquet halls and a hotel. The Company commenced operations of its shopping complex in July, 2016, whereas, the hotel commenced operations in May, 2017. Subsequently, the Company expanded its hotel operations by adding two more floors which became operational in July, 2018.

Ownership

Ownership Structure The Company is a joint venture between Allied bank and Mansha Family. Major shareholding of the Company lies with Mansha Family (~90%), through Mian Hassan Mansha (~22%), Mian Raza Mansha (~22%), Mian Umer Mansha (~22%) and associated companies (~25%). The remaining shareholding (~10%) is held by Allied Bank as on Jun'19.

Stability Ownership structure of the Company is seen as stable as no ownership changes are expected.

Business Acumen The Company is considered to have strong business acumen through Nishat Group, which is one of the leading business houses of Pakistan. It has been around for more than 60 years and has grown from a cotton export house to having a strong presence in the cement, textile, banking and power industries.

Financial Strength The Group has strong financial strength with a leading market position in textile, with its flagship entity, Nishat Mills. It is considered to be at par with multinationals in terms of quality products and management skills. Nishat Mills, the Group's holding company had a consolidated asset base of ~PKR 156bln as on 9MFY19.

Governance

Board Structure The Company's Board of Directors comprises seven members including the Chairman, Chief Executive Officer and five non-executive directors.

Members' Profile Board members have strong profiles and specialize in banking, power, textile and cement, in addition to hospitality.

Board Effectiveness The Company lacks presence of board committees, however, board meetings are properly organized with minutes being captured in formal manner.

Financial Transparency A.F. Ferguson Chartered Accountants & Co., classified in category 'A' by SBP and having a satisfactory QCR rating, are the external auditors of the Company. They have expressed an un-qualified opinion on the financial statements for the year ending in June, 2018.

Management

Organizational Structure The Company has a well-defined organizational structure and is based on three departments, namely, finance, coordination and leasing. All department heads are reportable to the Chief Executive Officer.

Management Team Mr. Mian Hassan Mansha acts as the Chief Executive Officer of the Company. He has been with the Company since its inception and holds years of experience relating to real estate and power generation. He is aided by Mr. Muhammad Ali Pervez who acts as the Chief Financial Officer and is a fellow member of the Institute of Chartered Accountants of Pakistan with over 15 years of experience. Moreover, hotel operations are looked after by Mr. Eric Fontaine, who has joined the Company six months ago and is the General Manager of the Hotel with over 39 years of experience.

Effectiveness The Company has no management committees in place. However, management accounts are discussed among senior management to review monthly activity.

MIS The Company has deployed Oracle as its enterprise resource planning system. Reports are submitted to management on a daily, weekly and monthly basis.

Control Environment The Company's internal audit department is centralized and is shared between all group companies. The department has strict procedures and policies in place to ensure efficiency in reporting and standard operating procedures. Moreover, it conducts evaluations during the year and submits summarized reports to senior management.

Business Risk

Industry Dynamics Recent growth in the economy, coupled with improving security conditions, led to growth in Pakistan's hospitality sector. Additionally, progression of China Pakistan Economic Corridor (CPEC) further boosted the industry. The luxury hotels space in Pakistan is largely dominated by a few major players as barriers to entry exist due to the capital intensive nature of the business. However, recent geopolitical scenario in conjunction with economic slowdown has impeded industry growth in 9MFY19. Moreover, Pakistan's retail industry has been improving recently.

Relative Position The Company has an insignificant market share with ~198 rooms. The industry is led by Pearl Continental with 1,556 rooms, followed by Sarena Hotels 828 rooms and Avari Hotels 508 rooms. The Company's mall, the Emporium, is one of the largest shopping malls in Pakistan.

Revenues The Company sources its revenue from the following five segments: i) Rental Income, ii) Service and management charges, iii) Advertisement and parking income, iv) Room, banquet rent and service charges and v) Play zone income. Major portion of revenue emanates from rental income which represents ~49% of total revenue. During 9MFY19, sales clocked in at ~PKR 3,141mln depicting a growth of ~14% over the same period last year (~PKR 2,761mln; 9MFY18). Growth can be seen as an effect of higher shop occupancy, which reached full capacity during FY18, and increased rental rates which are subject to annual increments. Additionally, revenue from the hotel (rooms and banquet rent) as on 9MFY19 witnessed a 55% surge (~PKR 574mln) in comparison to the same corresponding period last year (~PKR 371mln; 9MFY18) on account of improved hotel occupancy rates.

Margins The Company has been able to improve its business profile during 9MFY19, as its Gross margins have improved to ~31%, up from its levels on FY18 (~28%) and has returned to levels that were last seen in FY17. Similarly, a significant improvement in operating margins has also been observed during the last two financial quarters as they stood at ~22% (9MFY19) and ~19% (6MFY19), up from ~16% observed in FY18. This improvement came on account of decreased administrative and marketing expenses in comparison to prior corresponding periods. However, high finance costs constrained profitability and led to a net loss of ~PKR 536mln in 9MFY19.

Sustainability Going forward, the Company is in process of further solidifying its brand in the hotel industry and is looking to increase its occupancy rates.

Financial Risk

Working Capital The Company has been able to maintain a strong position on working capital management over the years through effective administration of debtors and creditors. However, during 9MFY19, net working capital days marginally worsened to stand at 12 days (FY18: 8 days) due to higher receivable days. However, the Company bears a negative impact of excess borrowings which have been utilized for capital expenditure. This results in a mis-match in the debt mix.

Coverages During 9MFY19, the Company registered a marginal increase in its FCFO as it stood at ~PKR 1,625mln (FY18: 1531mln, 9MFY18: 1300mln). Increased FCFO can be seen as an effect of high revenues during the year. However, despite improved cash flows the Company maintained weak coverages due to high financial charges. During FY18 interest coverage stood at 1.3x and debt coverage stood at 0.4x (FY17: interest coverage: 1.4x; debt coverage: 0.2x), representing the Company's weak ability to meet financial obligations. Coverages have deteriorated in 9MFY19 in contrast to its levels in the same period last year, with interest coverage standing at 1.3x and debt coverage at 0.4x (9MFY18: interest coverage: 1.5x; debt coverage: 0.4x).

Capitalization The Company has an aggressive capital structure with a debt-to-equity ratio of ~69% in 9MFY19. Majority of the debt taken up is long-term in nature, representing ~73% of total debt which stood at ~PKR 17,713mln in 9MFY19 (FY18: ~PKR 18,092, 9MFY18: ~PKR 17,629mln). The Company has a syndicated arrangement with a consortium of banks to raise additional debt and meet debt servicing requirements. The Company has raised further debt to meet the upcoming principal and interest payments. Moreover, the company has procured short term loans from associated companies to meet working capital needs.

Credit Rating Scale & Definitions

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

| Long Term Ratings | | Short Term Ratings | |
|-------------------|---|--------------------|--|
| AAA | Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments | A1+ | The highest capacity for timely repayment. |
| AA+ | Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events. | A1 | A strong capacity for timely repayment. |
| AA | | A2 | A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions. |
| AA- | | A3 | An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions. |
| A+ | High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions. | B | The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. |
| A | | C | An inadequate capacity to ensure timely repayment. |
| A- | | | |
| BBB+ | Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity. | | |
| BBB | | | |
| BBB- | | | |
| BB+ | Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met. | | |
| BB | | | |
| BB- | | | |
| B+ | High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment. | | |
| B | | | |
| B- | | | |
| CCC | Very high credit risk. Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. "C" Ratings signal imminent default. | | |
| CC | | | |
| C | | | |
| D | Obligations are currently in default. | | |

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.

Rating Watch Alerts to the possibility of a rating change subsequent to, or in anticipation of, a) some material identifiable event and/or b) deviation from expected trend. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating Watch may accompany Outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) cessation of underlying entity, c) the debt instrument is redeemed, d) the rating remains suspended for six months, e) the entity/issuer defaults, or/and f) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Disclaimer: PACRA's ratings are an assessment of the credit standing of entities/issue in Pakistan. They do not take into account the potential transfer / convertibility risk that may exist for foreign currency creditors. PACRA's opinion is not a recommendation to purchase, sell or hold a security, in as much as it does not comment on the security's market price or suitability for a particular investor.
