Rating Rationale and Key Rating Drivers

Kashf Foundation is a renowned Microfinance Institution (MFI); it has been in operations since 1996. MFIs are governed by SECP regulations mainly NBFC (Establishment and Regulations) Rules, 2003, Non-Banking Finance Companies and Notified Entities Regulations 2008 and others. The key element is that MFIs are not permitted to mobilize deposits. While this provides funding constraints, it also delimits the boundaries of risk. Kashf Foundation is a not-for-profit organization. Hence, the source of funding comprises a) internal generation of profits, b) loans and c) grants. Profitability of the foundation is sanguine and hence integral generation of capital is occurring at a very good rate. Second major source of funding is borrowings. The foundation has diversified its borrowing to both local and foreign institutions and is additionally issuing a (PPTFC) of PKR 2bln with a green shoe option of PKR 1bln to fuel growth. Governance structure takes strength from the body of members and board of directors, who, in their own right, are reputable individuals. The induction process reflects alignment of the incumbent members to the institution itself, a self-propelling drive to contribute. The quality of board discussions is an evidence to this assertion. Design of the not-for profit MFI itself is the right recipe for longevity. There are examples in the world around, providing assurance. The ratings incorporate strong business profile of the foundation demonstrated by continued enhancement in business volumes. The foundation has been closely focusing on technological developments to uphold the growth with an integrated systems. Overall financial risk profile displays comfortable outlook.

The ratings are dependent on the foundation's aptness to sustain positive asset health indicators amidst growth in business volumes. Meanwhile, sustenance of improved margins are imperative. The ratings would also monitor the impact of technological advancement on the operational and risk efficacy of the foundation.

Profile

Structure Kashf Foundation (hereby known as “Kashf” or “Foundation”) is the first Microfinance Institution of the country. It is licensed by the Securities and Exchange Commission of Pakistan (SECP) under the Non-Banking Finance Companies Rules, 2003.

Background Kashf was established in 1996 and began operations as a Grameen replicator. It was incorporated with the SECP in 2007 as a public company limited by guarantee under Section 42 of the Companies Ordinance, 1984 (now Companies Act, 2017).

Operations Kashf operates at a national level with a network of over 300 branches. The foundation extends small loans to under privileged community with a maturity of less than or equal to one year. Most of the foundation's portfolio is concentrated in urban areas of Punjab. Main product of the foundation is “Kashf Karobar Karza” loan which is provided to boost entrepreneurship in the country. Most of the foundation's clientele is female.

Ownership

Ownership Structure Overall control of the foundation vests with 11 members. All members have deposited certain amount of guarantee in the foundation as per the Companies Act, 2017 requirements.

Stability Kashf has a proper succession plan in place which is expected to remain, going forward.

Business Acumen Members of the foundation are experienced professionals and have suitable skills to direct the foundation in achieving its objectives.

Financial Strength The probability of the foundation to get financial support from members is low, since the foundation is registered as a not-for-profit organization under section 42 of the Companies Ordinance 1984 (now Companies Act, 2017).

Governance

Board Structure Kashf has an eight-member board of directors (BODs). Dr. Attiya Inayatullah is the chairman of the board.

Members' Profile The board members have extensive experience in the sector. Dr. Attiya Inayatullah is a well known philanthropist in the country. She is the president of the Society for the Protection of the Rights of the Child (SPARC) and other social development organizations. She is associated with Kashf since 2007.

Board Effectiveness There are five sub-committees to assist the board, namely (i) Audit Committee, (ii) Credit, Program & Finance Committee (iii) Human Resource Committee (iv) Investment Committee and (v) Nomination Committee. Attendance during the meetings was good and minutes were properly documented.

Financial Transparency Deloitte Yousuf Adil Chartered Accountants are the External Auditors of the foundation. They expressed an unqualified opinion on the financial statements for the year Ended June'18. Internal Audit Department of the foundation reports directly to the Audit Committee. Compliance department is also in place which conducts regular inspection of all relevant departments.

Management

Organizational Structure Kashf operations are grouped under nine departments. Functions are distributed among head office and branches. Core lending activities are carried out at the branch level.

Management Team The foundation has a mix of diverse experience and skilled management. Ms. Roshaneh Zafar, the CEO, is one of the founding members of the foundation having an experience of over two decades. She is a renowned philanthropist and is assisted by an experienced management team.

Effectiveness The foundation has a systematic decision making process. There are no formal management committees in place. Each department head ensures smooth operations of their department and reports to the Chief Executive Officer on pertinent matters.

MIS Most of the departments are integrated which adds to effective decision making by the management.

Risk Management Framework Proper risk management policy to manage operational and credit risk is in place. Loan approval process is decentralized at the branch level. Recovery of all loans is being done through different agents.

Technology Infrastructure Kashf is continuously investing in its technological infrastructure to increase automation and efficiency in the departments which is a need of time in the microfinance industry. The increased automation would result in expediting the loan recovery process, providing good surveillance and helping to keep its infection ratio in-check.

Business Risk

Industry Dynamics Pakistan Microfinance Industry comprises 41 microfinance providers including 11 Microfinance Banks (MFBs), 15 Microfinance Institutions (MFIs), 6 Rural Support Programmes (RSPs) and 9 other projects. As at FY19, the overall industry borrowers stood at ~7.1mln out of which MFIs constitute ~2.3mln active borrowers, representing ~32% of the total market. The industry Gross Loan Portfolio (GLP) clocked at PKR ~293,695mln out of which MFIs represent 17% i.e. PKR ~49,798mln. The Microfinance Industry's growth has dwindled in FY19. A ~7% YoY increase of GLP was witnessed as opposed to ~38% in FY18.

Relative Position Considering the market share of ~5% in term of Gross Loan Portfolio of whole industry, the foundation is considered as a relatively mid-tier player in the Microfinance sector and one of the largest Microfinance Institution. It is the one of the oldest players in the MFIs industry which has enabled it to develop a strong relationship with the borrowers.

Revenue Kashf earned an interest income of PKR~4,901mln in FY19 with growth of ~37% YOY basis (FY18: PKR~3,574mln). Revenue is growing due to enhanced business volumes i.e. active borrowers.

Profitability The bank's business model emphasizes on keeping investments in non-earning assets as low as they could be to earn maximum returns from its asset base. During FY19, Kashf's posted a profit of PKR~1,188mln (FY18: PKR~821mln). Spread was impacted by the increased policy rates, since the long term liabilities of the foundation are KIBOR based.

Sustainability Kashf's primary objective is to strengthen its market position with the ultimate aim of financial inclusion in the country. To achieve the stated objective, Kashf has diversified its products base on a timeline basis. For geographical penetration, the foundation has already developed a goodwill to attract potential clients. Customer centric business approach has been adopted. High interest rates amidst macro-economic instability would be a key challenge for Kashf, going forward.

Financial Risk

Credit Risk The foundation has properly designed loan approval and disbursement process. As mentioned earlier the loan approval process is de-centralized at branch level. Asset risk is low due to strong control & recovery mechanism. The GLP, as at FY19, stands at PKR ~13,866mln. Infection ratio of the foundation is well below industry average.

Market Risk Market risk is expected to be impacted by the monetary policy and macro instability in the country. High policy rates will increase the financing cost of the foundation as all local long term borrowing carry floating interest rate. Kashf has a policy to hedge all foreign currency exposures, which is beneficial for the foundation, in the current environment.

Funding The foundation's funding mix mostly constitutes long term loans from both local and foreign borrowers. Total debt of the foundation as at FY19 rose to PKR ~14,235mln (FY18: PKR~10,798mln). The foundation is in process to issue Privately Placed Term Finance Certificate of PKR 2,000mln with green shoe option of PKR 1,000mln to diversify its funding base.

Liquidity Kashf's liquidity position improved during FY19 as the liquidity ratio rose to 29% as compared to 26% in FY18. The improvement is led by a significant increase in cash and bank balances during the year. The advances/borrowing ratio has stayed consistent at 97%.

Capital Adequacy SECP has no minimum requirement for MFIs unlike SBP which require MFBs to maintain their CAR at 15%. Equity of the foundation stood at PKR~4,193mln as at FY19.

Credit Rating Scale & Definitions

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Long Term Ratings		Short Term Ratings	
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments	A1+	The highest capacity for timely repayment.
AA+	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.	A1	A strong capacity for timely repayment.
AA		A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
AA-		A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A+	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.	B	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions.
A		C	An inadequate capacity to ensure timely repayment.
A-			
BBB+	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.		
BBB			
BBB-			
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.		
BB			
BB-			
B+	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.		
B			
B-			
CCC	Very high credit risk. Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. "C" Ratings signal imminent default.		
CC			
C			
D	Obligations are currently in default.		

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.	Rating Watch Alerts to the possibility of a rating change subsequent to, or in anticipation of, a) some material identifiable event and/or b) deviation from expected trend. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating Watch may accompany Outlook of the respective opinion.	Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.	Withdrawn A rating is withdrawn on a) termination of rating mandate, b) cessation of underlying entity, c) the debt instrument is redeemed, d) the rating remains suspended for six months, e) the entity/issuer defaults, or/and f) PACRA finds it impractical to surveil the opinion due to lack of requisite information.	Harmonization A change in rating due to revision in applicable methodology or underlying scale.
