Rating Rationale and Key Rating Drivers

The ratings reflect Jahangir Siddiqui & Co. Ltd's ('JSCL' or 'the Company') strong presence as a Holding Company in the financial sector with a portfolio of investments mainly in banking , insurance, brokerage and asset management segments. JS Bank is also in process of acquiring additional stake (~7.8%) in BankIslami to further increase JS Group's financial footprint in the banking sector. JSCL holds a significant stake in EFU General Insurance (EFUG) and EFU Life Assurance (EFUL) and plans to maintain them. JSCL intends to diversify its portfolio and has made significant investments in LPG storage and infrastructure, through its wholly-owned subsidiary, Energy Infrastructure Holding (Pvt.) Ltd. (EIHPL). The investments are predominantly funded by equity. Lately, EIHPL has signed an SPA for sale of 100% of its holding in Quality 1 Petroleum (Pvt.) Ltd subject to condition precedents, and is evaluating other investment plans while, JS Petroleum Ltd. is enroute to establishing an LPG storage terminal at Port Qasim, Karachi. The Company's income stream has remained stable with the majority of dividend income emanating from EFUG and EFUL. This along with other income and investment in derivatives supplements the revenue stream. The Company has a very strong capital structure with low leveraging and adequate coverages. Lately, the Company has issued Class A Preference Shares to make strategic investments and reduce its debt to strengthen its working capital. During the year, the Company fully repaid the outstanding principal along with the accrued mark-up against its privately placed TFC IX. JSCL does not plan to take further debt in the near term. The Company's portfolio has not been impacted materially despite the capital markets downturn, exhibiting its resilience.

The ratings are dependent on the management's ability to execute its envisaged strategy of growth and expansion amidst the prevailing tough environment. Timely materialization of these initiatives into sustainable ventures is critical. Strong performance of subsidiaries, stable dividends, and effective management of financial profile and liquidity remains important.
