Rating Rationale and Key Rating Drivers

H. Sheikh Noor-ud-Din & Sons (Private) Limited (“The Company”) is a family-owned manufacturing arm of NRS Relief which is primarily engaged in the manufacturing of a unique range of innovative humanitarian relief products (tents, tarpaulins, canvas, mosquito nets, and other items) for international donor agencies. The need for these products arises due to natural calamities such as floods, wildfires and earthquakes or man-made crises. During 2020, changes in ownership and governance structure of the Company affected its performance; it did not bid for new contracts with international relief agencies for the supply of core relief items, which along with Global Pandemic Crises and subsequent lockdowns led to a fall in revenue while sabotaging profitability margins. For the last two years, the Company’s sales of Long-Lasting Insecticidal Nets (LLIN) – prominent business driver – reluctantly suffered as production facility remained closed. High debt levels put adverse shock on Company’s financial profile. Consequently, management decided to turn its major short-term borrowings to SBP’s export refinance scheme with an ultimate goal of reducing interest expenses. Going forward, the Company shall be pursuing a business philosophy; focusing low volume high margin transactions. Financial, Operational & Reputation risks shall exist for the Company in upcoming period. The ratings incorporate the Company’s long-term association with international donor agencies such as UN, UNHCR, UNICEF, Red Cross and others as a qualified vendor. Adequate support of sponsors and other group businesses remains a key rating factor. The ownership structure of the Company was reorganized after the sponsors reached a mutual agreement. PACRA has maintained "Rating Watch" and “Negative Outlook” on the ratings on account of observed decline in sales, issues pertaining to change in ownership structure and production from LLIN of the Company. PACRA will continue to closely monitor these developments. A rating action may be taken accordingly.

Successful transition of ownership, implementation of new governance structure, improvement in sales volumes through resumption of production of netting business, and prudent working capital management remain critical for ratings. Meanwhile, prudent financial discipline – particularly conservative capital structure and upright working capital management will be followed. Any reduction in sales and/or deterioration in coverages will impact the ratings negatively.

Profile

Legal Structure Haji Sheikh Noor-ud-Din & Sons Pvt. Ltd. ('The Company') was incorporated in 1979 as a Private Limited Company.

Background In 1966, Sheikh Muhammad Sarwar, founder and Chairman of the Company, opened a local shop to sell canvas. A pivotal event in the Company was when it began to supply tents to the United Nations during the Iran-Iraq War in 1980.

Operations Principal operations of the Company comprise production and sale of humanitarian relief items, multi-purpose tents, insecticidal nets and solar solutions. The Company operates as the production arm of NRS Group (NRS Relief).

Ownership

Ownership Structure The group is a family business owned and managed by Sarwar family via equal individual shareholdings of four brothers Farhan Sarwar, Farhaj Sarwar, Ahmar Sarwar and Furqan Sarwar. However, Sarwar family has decided to alter the ownership structure. In the new structure, Mr. Farhan will sell his shareholding in the Company and the remaining three brothers; Mr. Farhaj Sarwar, Mr. Ahmar Sarwar and Mr. Furqan Sarwar will split the shareholding equally.

Stability The Company recently went through the process of re-designing its ownership structure. Sponsors of the Company reached an asset division agreement, which resulted in one of the four brothers exiting the Company. The agreement also clearly lays out a road map for any future division of the Company assets in case of a split between the remaining three brothers. The transition in ownership structure has affected stability.

Business Acumen Sponsors have strong knowledge of the industry with extensive experience in the relevant fields. This facilitates smooth and effective running of the Company.

Financial Strength Financial Strength of the entity is considered strong. Apart from relief industry, the sponsors are also involved in other businesses like; oil manufacturing, poultry and dairy products.

Governance

Board Structure The board is dominated by the sponsors. Currently, all four brothers are on the board but the composition will soon reduce to three brothers after the departure of Mr. Farhan Sarwar from the Company. All directors are executive directors.

Members' Profile Board members have significant industry experience and have a long association with the Company. During FY19, Mr. Farhaj Sarwar replaced Mr. Farhan Sarwar as the CEO and Chairman of the Company.

Board Effectiveness As a private limited company, the board does not have any formal committees. Being executive directors, three directors (Mr. Farhaj, Mr. Ahmar and Mr. Furqan) are actively involved in the day-to-day operations of the Company. There is room for improvement in governance framework.

Financial Transparency RSM Avais Hyder Liaquat Nauman Chartered Accountants are the external auditors of the Company. The auditor has given an unqualified opinion on the financial statements for the year ended June 30, 2021.

Management

Organizational Structure The Company has a broad organizational structure. It is mainly divided into four divisions. Three divisions operate in Pakistan whereas sales and marketing division is based in Dubai. The four divisions are 1) Finance, 2) Sales & Marketing Services, 3) Supply Chain Services, and 4) Production.

Management Team Mr. Farhaj Sarwar looks after the sales and marketing division of the group in Dubai and Mr. Furqan Sarwar overseas production division. Whereas, Mr. Ahmar Sarwar heads finance function, as well as, administrative responsibilities discharged by Mr. Farhan Sarwar. Mr. Farhaj Sarwar recently replaced Mr. Farhan Sarwar as the CEO of the Company.

Effectiveness The Company maintains good IT infrastructure and related controls. The Company recently changed its Enterprise Resource Planning Software from SAP to Oracle EBS 12.27 and Qlik Sense in its facilities. Four new management committees were formed during the year which are i). Contingency Committee, ii). Legal Affairs Committee, iii). Taxation Committee & iv). HR Committee.

MIS The Company maintains a comprehensive MIS reporting system for the management to keep track of activities. The Company's MIS comprises a range of reports including cash position, receivable position, payable position, production, inventory status reports, and segment wise profit & loss statement.

Control Environment The Company has a well-trained quality control department, which is responsible for ensuring strict product quality. The Company's compliance with internationally acclaimed quality standards help it meet customer specification. The Company is ISO 9001, ISO – 14000 and SA 8000 certified.

Business Risk

Industry Dynamics Sales of the industry are majorly made to relief organizations worldwide to help people in areas affected by natural calamities or areas which are more prone to diseases caused by mosquitoes. Relief items are mainly provided in parts of Africa, parts of Middle East, Western Asia which are affected by war, floods or other calamities.

Relative Position The Company is Pakistan's leading manufacturer of core relief items and long-lasting insecticidal nets for humanitarian aid and public health sectors. The Company also has a moderate presence in international market in netting.

Revenues During FY21, revenue of the Company decreased by ~3.3% YoY to PKR 5,815mln (FY20: PKR 6,015mln) due to delay in bidding for new contracts with internal relief organizations amid ownership division in the Company, delay in shipment of existing orders and low demand. This resulted in production halts and affected top-line. The Company's sales mix was dominated by Tent and Tarpaulin.

Margins The Company's gross margin decreased to ~20.4% in FY21 (FY20: 27.8%) and operating margin to 12.2% (FY20: 18.7%) due to increase in raw material cost. Significant decline in the Company's topline was a contributing factor to deterioration in margins. Accordingly, the net profit margin decreased to 0.9% (FY20: 4.4%) despite the lower finance cost (FY21: PKR 616mln, FY20: PKR 820mln). Finance cost in absolute terms has decreased by 24.9% and as proportion of sales it was 10.59% as compared to 13.63% in FY20. Net profit of the Company stood at PKR 50mln in FY21.

Sustainability In recent times, the Company's business suffered due to internal ownership changes and Covid-19 led lockdowns. However, deferment of interest payment for one year provided much needed support to the Company's liquidity position in the short term.

Financial Risk

Working Capital During FY21, the Company's net working capital cycle decreased to 387 days (FY20: 428 days), still dominant by both lower sales and high average receivable days. Short term borrowings slightly decreased to PKR 7,817mln (FY20: PKR 8,186mln). Short term borrowings were required to meet the financing gap due to higher inventory retention and lower receivable realization. The Company short-term trade leverage further decreased to negative 18.1% in FY21 (FY20: 0.2%) due to decrease in net trade assets. The Company's average net working capital stood at 364 days (FY20: 396 days).

Coverages During FY21, Free Cashflow from Operations (FCFO) decreased by ~39% and clocked in at PKR 957mln (FY20: PKR 1,570mln) mainly due to lower profitability during the year. Impact of decrease in finance cost was offset by decrease in FCFO, which led to lower interest coverage ratio of 1.6x (FY20: 2.0x). Similarly, debt coverage ratio deteriorated to 1.1x (FY20: 1.8x).

Capitalization During FY21, the Company's leveraging improved and stood at 42.8% (FY20: 43.9%) on account of decrease in total debts of the Company during period under review which has reduced to PKR 9,317mln from PKR 9,714mln. In absolute terms, total debt decreased by ~4.08%. Short-term borrowings made continues to be significant proportion of total borrowings (FY21: 83.9%, FY20: 84.3%).

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

*The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
