Rating Rationale and Key Rating Drivers

Pakistan's sugar industry is the country's 2nd largest agro-based industry, comprising of 90 mills with an annual crushing capacity estimated at~ 80–90mln MT. Despite overcoming the challenge of raw material supply, the industry is facing a constraint due to the government-set support price for sugarcane, which is determined based on the cost incurred by farmers. During MY22, the support prices for sugar-cane in Punjab were fixed at PKR 230/maund and PKR 250/maund in Sindh. Actual realized sugarcane prices at the mill gate were even higher. During MY22, the overall sugar production increased by 9%, YoY, to 7.1mln MT (MY21: 6.5mln MT) due to better crop availability and an increase in area under cultivation. Subsequently, sugar prices witnessed ~12% decrease. During the current crushing season (MY23), loss of area un-der cultivation of roughly 4.7% amidst flash floods; the forecast of sugar production is affected and is estimated to be ~7mln MT. However, the carry-over stock from MY22 and the expected sugar production during MY23 are likely to result in a surplus of local sugar production. Therefore, the Government has allowed exports of 0.25mln MT on the basis of production during MY22. The support prices have been fixed at PKR 300/maund for Punjab and PKR 302/maund for Sindh. Although low sugar prices locally and increased sugarcane prices have prompted many sugar mills to close the crushing early in MY23, sugar exports are expected to be favorable for the industry, ensuring liquidity remains intact.

The ratings reflect Hunza Sugar Mills (Pvt.) Limited's ('the Company') substantial crushing capacity, diverse revenue stream (comprising local sugar sales and ethanol exports), and sponsors' strong acumen. Despite volatility in the sugar segment and ensuing challenges, the Company has witnessed significant improvement in its financial performance with a growth of 7.4%. Higher cane cost has led to rising sugar prices in the local market during MY22. Consequently, the Company earned significant profits from the sugar segment. Similarly, the Company also benefited from the rising ethanol prices, internationally. The Company has stable business profile and healthy margins owing to diversification despite volatile market conditions. The Company's financial risk remains adequate owing to improved capital structure supported by enhanced equity base. Moreover, sponsors' firm commitment to provide financial support in a timely manner provides comfort to the ratings.

The ratings are dependent upon the Company's ability to maintain healthy margins, improve coverages and rationalize short-term borrowings to avoid asset-liability mismatch. Any significant deterioration in margins and/or cash flows will impact the ratings negatively. Improvement in governance framework and internal controls will be favorable for the ratings.

Profile

Legal Structure Hunza Sugar Mills (Pvt.) Limited ('Hunza Sugar' or 'the Company') is a private limited company incorporated in 2002.

Background Hunza Sugar is part of the Hunza Group ('the Group'). The flagship company of the Group was Hunza Ghee Mills (Pvt.) Limited in the edible oil sector and it dates back to 1988. The Company has a diverse revenue stream. It manufactures refined sugar, molasses, ethanol, and other allied products. The Company installed its distillery and CO2 processing plant in MY14 and MY18, respectively.

Operations Hunza Sugar has two sugar crushing units and a distillery in Faisalabad (Unit 1) and Jhang (Unit 2). Unit 1 and Unit 2 have a crushing capacity of 10,000 TCD and 10,000 TCD, respectively. In MY22, the Company has crushed 2,572,80 MT of sugarcane from its two units in Faisalabad and Jhang. Hunza Sugar has produced 232,120 MT of refined sugar in MY22, up by 34%. In MY22, the Company has distilled over 53,550,000 liters of ethanol and has produced 16,724 MT of CO2.

Ownership

Ownership Structure The Company is a family-owned entity. Shares of the Company are divided among the families of three brothers Mr. Idrees Chaudhry, Mr. Saeed Chaudhry, and Mr. Waheed Chaudhry. All three sponsoring families own an equal stake of 33%.

Stability The distinction in the ownership is very clear adding to the stability of the structure

Business Acumen The Group has witnessed multiple business cycles and the sponsor's strong acumen is evident from substantial presence in the country's sugar, ethanol, and edible oil segments. Hunza Group initially started with Hunza Ghee Industries (Pvt.) Limited in the Edible Oil sector in 1988. The Company produces vegetable ghee and cooking oil that sells under the brand 'Swera Ghee' and 'Swera Cooking Oil'. The Company carries out the import and sale of edible oil through its group company called Swera Traders (Pvt.) Limited. The Group diversified its operations and entered the sugar industry in 2002. Hunza Sugar expanded through forward integration by venturing into distillery business in MY14. Lately, the Group has setup Hunza Citrus, Hunza Steel and Suraj Traders.

Financial Strength Hunza Group as a whole has a strong asset base. The Group posted stable turnover and adequate profits in the financial year ending Jun-22.

Governance

Board Structure The BoD comprises three members from the sponsoring families. The BoD lacks independent oversight.

Members' Profile Mr. Idrees Chaudhary, the eldest brother, is the Chairman of the Board of Directors. He serves as an adviser to the management. Mr. Waheed Chaudhary looks after the external relations of the Company. All the Board members have more than 35 years of overall experience and more than 15 years of experience in the sugar industry.

Board Effectiveness The Board met four times during MY22 to approve the financial statements. Minutes of the Board meetings are not formally documented.

Financial Transparency The auditors of the Company are Amin, Mudassar & Co, issued an unqualified opinion for MY22. The firm is QCR rated and is Category 'B' of SBP panel of auditors.

Management

Organizational Structure The Company operates through five main departments: Finance, IT, Administration, Technical and Quality Control. All functional heads reports to the Company's CEO.

Management Team Mr. Saeed Chaudhry is the CEO of the Company. He has an overall experience of 35 years in the edible oil sector and 15 years of experience in the sugar industry. Other members of senior management are also well qualified with ample experience.

Effectiveness Management conducts a monthly review of management accounts, accounts receivable and payable, and other financial matters.

MIS The Company operates in-house software to manage its financial accounts. Moreover, it also uses the Inventory module (Purchases and Inventory Management), Sales module (Sales Management and Stock Management), Payroll management, and Cane Procurement System. Currently, the Company is implementing a new ERP system to meet the growing needs of Hunza Sugar.

Control Environment The Company relies on a set of segregation of duties established processes and procedures that incorporate internal controls. The Company has one member in the internal audit section. The Company should lay emphasis on improving its' control environment.

Business Risk

Industry Dynamics Pakistan's sugar industry is the country's 2nd largest agro-based industry, comprising of 90 mills with an annual crushing capacity estimated at ~80-90mln MT. Despite overcoming the challenge of raw material supply, the industry is facing a constraint due to the government-set support price for sugarcane, which is determined based on the cost incurred by farmers. During MY22, the support prices for sugar-cane in Punjab were fixed at PKR 230/maund and PKR 250/maund in Sindh. Actual realized sugarcane prices at the mill gate were even higher. During MY22, the overall sugar production increased by 9%, YoY, to 7.1mln MT (MY21: 6.5mln MT) due to better crop availability and an increase in area under cultivation. Subsequently, sugar prices witnessed ~12% decrease. During the current crushing season (MY23), loss of area under cultivation of roughly 4.7% amidst flash floods; the forecast of sugar production is affected and is estimated to be ~7mln MT. However, the carry-over stock from MY22 and the expected sugar production during MY23 are likely to result in a surplus of local sugar production. Therefore, the Government has allowed exports of 0.25mln MT on the basis of production during MY22. The support prices have been fixed at PKR 300/maund for Punjab and PKR 302/maund for Sindh. Although low sugar prices locally and increased sugarcane prices have prompted many sugar mills to close the crushing early in MY23, sugar exports are expected to be favorable for the industry, ensuring liquidity remains intact.

Relative Position Hunza Sugar contributes ~2% making it one of the leading sugar mills in Punjab region.

Revenues During MY22, the major portion of the Company's revenue emanates from Sugar (~63%), and Ethanol exports (~32%). Remaining ~5% of sales comprises CO2, bagasse, mud, and other chemicals. Hunza Sugar posted net revenue worth ~PKR 21.6bln during MY22 (MY21: ~PKR 20.2bln), reflecting growth of ~7% supported by an increase sugar prices, locally, and ethanol prices, internationally. Going forward, revenues may reap support from sugar and ethanol export along with inflationary trend in the local market.

Margins During MY22, the gross profit of the Company increased and stood at PKR ~3.7bln (MY21: ~PKR 3bln), supported by higher sugar prices. The gross profit margin stood at ~17% (MY21: ~15%). The operating margin stood at ~13% (MY21: ~12%) due to trickle down impact. Finance cost of the Company witnessed prominent increase (MY22: ~PKR 1,113mln, MY20: ~PKR 789mln) on account of increased KIBOR. The Company posted net income of PKR 615mln during MY22 (MY21: PKR 1.9bln), posting a dip in net margin (MY22: ~3%, MY21: ~9%) due to significant exchange loss against ethanol exchange contracts.

Sustainability The Company is exposed to volatility and ensuing challenges in the sugar sector.

Financial Risk

Working Capital Hunza Sugar is exposed to inherent stress in its working capital cycle due to seasonality in the sugar industry and manages its working capital requirement through short-term borrowings and internal cashflows. In MY22, net working capital days increased to 90 days (MY21: 56 days). The rise in net working capital days was due to the higher inventory held days (MY22: 74 days, MY21: 40 days), kept in anticipation of sugar exports and increase in local prices. Other components of working capital i.e., receivable days (MY22: 21 days, MY21: 21 days) and payable days (MY22: 5 days, MY21: 5 days) remained stable. The Company's holds a stretched borrowing cushion. Going forward, working capital cycle may become streamlined.

Coverages In MY22, the free cash flows of the Company posted minimal dip and stood at ~PKR 2.4bln (MY21: ~PKR 2.9bln). However, the finance cost witnessed a significant increase (MY22: ~PKR 1,113mln, MY21: ~PKR 789mln). As a result, the interest coverage ratio observed a drop to 2.3x (MY21: 3.8x). Similarly, debt coverage ratio regressed and stood at 0.8x in MY22 (MY21: 2.3x). Moreover, Debt payback period stood at 2.6x in MY22 (MY21: 1.5x). Going forward, coverages are expected to remain stretched due to high interest cost.

Capitalization Hunza Sugar holds a significantly leveraged capital structure, represented by a leveraging ratio ~67.7% in MY22 (MY21: ~54.3%). Majority of debt (~89%) comprises short-term borrowings to meet the working capital requirements. Short-term lines are utilized to support operations during the crushing cycle. Going forward, the Company is expected to remain significantly leveraged.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	
BB	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. "C" Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

*The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

Note. This scale is applicable to the following methodology(s):

- a) Broker Entity Rating
- b) Corporate Rating
- c) Debt Instrument Rating
- d) Financial Institution Rating
- e) Holding Company Rating
- f) Independent Power Producer Rating
- g) Microfinance Institution Rating
- h) Non-Banking Finance Companies Rating

Disclaimer: PACRA has used due care in preparation of this document. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA shall owe no liability whatsoever to any loss or damage caused by or resulting from any error in such information. Contents of PACRA documents may be used, with due care and in the right context, with credit to PACRA. Our reports and ratings constitute opinions, not recommendations to buy or to sell.

Rating Team Statements

(1) Rating is just an opinion about the creditworthiness of the entity and does not constitute recommendation to buy, hold or sell any security of the entity rated or to buy, hold or sell the security rated, as the case may be | Chapter III; 14-3-(x)

2) Conflict of Interest

i. The Rating Team or any of their family members have no interest in this rating | Chapter III; 12-2-(j)

ii. PACRA, the analysts involved in the rating process and members of its rating committee, and their family members, do not have any conflict of interest relating to the rating done by them | Chapter III; 12-2-(e) & (k)

iii. The analyst is not a substantial shareholder of the customer being rated by PACRA [Annexure F; d-(ii)] Explanation: for the purpose of above clause, the term "family members" shall include only those family members who are dependent on the analyst and members of the rating committee

Restrictions

(3) No director, officer or employee of PACRA communicates the information, acquired by him for use for rating purposes, to any other person except where required under law to do so. | Chapter III; 10-(5)

(4) PACRA does not disclose or discuss with outside parties or make improper use of the non-public information which has come to its knowledge during business relationship with the customer | Chapter III; 10-7-(d)

(5) PACRA does not make proposals or recommendations regarding the activities of rated entities that could impact a credit rating of entity subject to rating | Chapter III; 10-7-(k)

Conduct of Business

(6) PACRA fulfills its obligations in a fair, efficient, transparent and ethical manner and renders high standards of services in performing its functions and obligations; | Chapter III; 11-A-(a)

(7) PACRA uses due care in preparation of this Rating Report. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA does not, in every instance, independently verifies or validates information received in the rating process or in preparing this Rating Report | Clause 11-(A)(p).

(8) PACRA prohibits its employees and analysts from soliciting money, gifts or favors from anyone with whom PACRA conducts business | Chapter III; 11-A-(q)

(9) PACRA ensures before commencement of the rating process that an analyst or employee has not had a recent employment or other significant business or personal relationship with the rated entity that may cause or may be perceived as causing a conflict of interest; | Chapter III; 11-A-(r)

(10) PACRA maintains principal of integrity in seeking rating business | Chapter III; 11-A-(u)

(11) PACRA promptly investigates, in the event of a misconduct or a breach of the policies, procedures and controls, and takes appropriate steps to rectify any weaknesses to prevent any recurrence along with suitable punitive action against the responsible employee(s) | Chapter III; 11-B-(m)

Independence & Conflict of interest

(12) PACRA receives compensation from the entity being rated or any third party for the rating services it offers. The receipt of this compensation has no influence on PACRA's opinions or other analytical processes. In all instances, PACRA is committed to preserving the objectivity, integrity and independence of its ratings. Our relationship is governed by two distinct mandates i) rating mandate - signed with the entity being rated or issuer of the debt instrument, and fee mandate - signed with the payer, which can be different from the entity

(13) PACRA does not provide consultancy/advisory services or other services to any of its customers or to any of its customers' associated companies and associated undertakings that is being rated or has been rated by it during the preceding three years unless it has adequate mechanism in place ensuring that provision of such services does not lead to a conflict of interest situation with its rating activities; | Chapter III; 12-2-(d)

(14) PACRA discloses that no shareholder directly or indirectly holding 10% or more of the share capital of PACRA also holds directly or indirectly 10% or more of the share capital of the entity which is subject to rating or the entity which issued the instrument subject to rating by PACRA; | Reference Chapter III; 12-2-(f)

(15) PACRA ensures that the rating assigned to an entity or instrument is not be affected by the existence of a business relationship between PACRA and the entity or any other party, or the non-existence of such a relationship | Chapter III; 12-2-(i)

(16) PACRA ensures that the analysts or any of their family members shall not buy or sell or engage in any transaction in any security which falls in the analyst's area of primary analytical responsibility. This clause shall, however, not be applicable on investment in securities through collective investment schemes. | Chapter III; 12-2-(l)

(17) PACRA has established policies and procedure governing investments and trading in securities by its employees and for monitoring the same to prevent insider trading, market manipulation or any other market abuse | Chapter III; 11-B-(g)

Monitoring and review

(18) PACRA monitors all the outstanding ratings continuously and any potential change therein due to any event associated with the issuer, the security arrangement, the industry etc., is disseminated to the market, immediately and in effective manner, after appropriate consultation with the entity/issuer; | Chapter III | 18-(a)

(19) PACRA reviews all the outstanding ratings on semi-annual basis or as and when required by any creditor or upon the occurrence of such an event which requires to do so; | Chapter III | 18-(b)

(20) PACRA initiates immediate review of the outstanding rating upon becoming aware of any information that may reasonably be expected to result in downgrading of the rating; | Chapter III | 18-(c)

(21) PACRA engages with the issuer and the debt securities trustee, to remain updated on all information pertaining to the rating of the entity/instrument; | Chapter III | 18-(d)

Probability of Default

(22) PACRA's Rating Scale reflects the expectation of credit risk. The highest rating has the lowest relative likelihood of default (i.e, probability). PACRA's transition studies capture the historical performance behavior of a specific rating notch. Transition behavior of the assigned rating can be obtained from PACRA's Transition Study available at our website. (www.pacra.com). However, actual transition of rating may not follow the pattern observed in the past | Chapter III | 14-(F-VII)

Proprietary Information

(23) All information contained herein is considered proprietary by PACRA. Hence, none of the information in this document can be copied or, otherwise reproduced, stored or disseminated in whole or in part in any form or by any means whatsoever by any person without PACRA's prior written consent
