Rating Rationale and Key Rating Drivers

The ratings reflect Sefam (Pvt.) Limited's reputable image as one of the leading players in the clothing/home textile retail industry with several established brands. The Company operates a complete range of clothing brands targeting all segments of the retail market. The major portion of the Company's raw material is sourced from group companies, which allows efficient supply chain management while ensuring quality. The Company has managed to sustain growth in revenues and profitability based on strong branding, despite sluggish trend and stiff competition in the retail market. However, since COVID-19 outbreak and subsequent lockdown, the Company has witnessed significant drop in sales. The Company has to resort to online sales, which constitute very small part of its overall revenues. The Company's profitability is expected to suffer in current circumstances. Ratings draw strength from the Company's strong financial profile, recently augmented by the declaration of previously undeclared inventory under the amnesty scheme in FY19. The capital structure remains low leveraged with strong coverages and efficient management of working capital.

The Rating Watch signifies the prevailing uncertainty due to the outbreak of COVID-19 pandemic. This has impacted the entire textile chain as demand contracts due to shutdown in domestic and global markets and tough economic conditions. SBP measures have provided some respite in this regard. The Company's production facilities, as well as shops, have been shut down in line with the provincial Government's directive of lockdown. However, eventual easing of lockdown since has provided much needed relief. PACRA is closely monitoring the situation and will take rating action accordingly.

The ratings are dependent on sustaining business performance amidst prevailing tough conditions. Full resumption of operations and reopening of shops, and maintaining strong financial profile amidst lower revenues is critical. The Company's ability to improve the governance framework by hiring better financial auditors will remain important.

Profile

Legal Structure Sefam (Private) Limited (Sefam) was incorporated in Pakistan in January, 1989, as a private limited Company.

Background Sefam was co-founded by Mr. Hamid Zaman and Ms. Seema Aziz and is an associated concern of Sarena and Ali Group of Industries. Sefam started out with its flagship brand, Bareezé, 30 years ago. It has now expanded to a family of 10 brands. Well-known brands owned by the Company include Bareezé, Minnie Minors, Leisure Club, Bareezé Home Expressions, Chinyere, Kayseria, among others, as well as a franchise of 'The Entertainer', which is the UK's largest independent toy retailer.

Operations The Company currently operates with 12 stitching units spread across Lahore and a total of 308 shops spread across the country. Only a couple of brands (Bareezé and Chinyere) have dedicated stitching and warehouse units, whereas, majority of the units are shared between brands. Additionally, the Company operates 6 Entertainer branches across Pakistan.

Ownership

Ownership Structure Sefam is wholly owned by the children of late Mr. J.A Zaman. Ms. Seema Aziz and Mr. Hamid Zaman hold 42% of the Company, each, while Mr. Tariq Zaman and Ms. Ambreen Zaman hold the remaining 16%, equally.

Stability While no written agreement between the sponsors currently exists, the Group is moving towards consolidation and formalization of Group structure in line with the current management structure.

Business Acumen The sponsor Group holds extensive experience and expertise in the textile and retail industry. They are viewed as the pioneers of introducing the concept of brands in Pakistan. Apart from the textile industry, the Group has also diversified into corporate farming, energy etc, through small scale ventures.

Financial Strength The net worth of the Group is considered strong and the sponsors have shown willingness and ability to support the Company in the past through various director loans.

Governance

Board Structure Sefam's Board of Directors comprises six members, four from the sponsoring family and two independent members. The Company effectively has two boards in place, one is a 'family board' which only comprises members of the sponsor family while the other is the 'extended board', which includes the external members. The family board discusses matters pertaining to operations and future strategy, whereas, the extended board meets for strategic planning.

Members' Profile Representatives from the sponsor family include Mr. Hamid Zaman and Ms. Seema Aziz, and their sons, Mr. Mustafa Zaman and Mr. Ali Zain all of whom have been part of the Company for a significant period of time. The external members are seasoned professionals with experience in diversified sectors.

Board Effectiveness Frequency of board meetings vary across both the Boards. However, there is no fixed number of meetings that are to be held in a year. Meetings are conducted when deemed fit without documentation of minutes.

Financial Transparency M/s Arshad Raheem & Co. Chartered Accountants, who are not rated by the SBP but are QCR rated by ICAP, are the external auditors of the Company. Auditors have provided an unqualified report for financial statements for the period ended 30th June 2019.

Management

Organizational Structure The organizational structure of the Company is well-defined and is based on different brands. Management of the brands is split between three individuals, namely, Mr. Hamid Zaman, Ms. Seema Aziz and, Mr. Ali Zain. All individuals report to the Board of Directors. Brands have independent and dedicated teams which are divided into various departments reporting to the relevant head.

Management Team Both Mr. Hamid Zaman and Ms. Seema Aziz are Managing Directors of the Company. While Mr. Hamid Zaman looks more after the strategic aspect of the business, Ms. Seema Aziz is actively involved in managing some of the brands that the group owns. They are assisted by a professional management team.

Effectiveness The Company does not have any formal management committees in place. Meetings among management are called when deemed fit and are participated in by relevant department heads without documentation of minutes.

MIS The Company relies on a combination of in-house developed, external and ready to use softwares for MIS. Sefam deploys SAP ECC 6 as its Enterprise Resource and Planning (ERP) system with three modules currently implemented. A major portion of the modules deployed have been developed in-house and are regularly updated.

Control Environment The Company invests heavily in research and development to come up with innovative designs and prints to capture the market. Quality is maintained through strict control measures in place. Additionally, the Company has in place in-house developed softwares which track production, customer feedback/complaints and worker efficiency.

Business Risk

Industry Dynamics During 9MFY20, textile exports increased by 5% period on period. Currency devaluation and US-China trade war earlier in the year helped the country to increase its exports in value-added segments. Despite a decrease in per-unit prices, a factor of sharing currency devaluation benefits with buyers, exports of value-added segments increased by ~6%. Though the COVID-19 outbreak in early 2020 has affected the entire textile chain. Export orders have been postponed or cancelled as major export destinations remain in lockdown to contain the virus. Several domestic players have shut down production or are partially operational. Recent government initiatives are expected to provide some relief. Ease in lockdown from 11 May will help to retrieve some of the lost sales for local brands but overall brands will struggle in already fiercely competed textile local market of Pakistan.

Relative Position Sefam is among the pioneers of textile retailing brands in Pakistan and is among the top retailing companies in the country, particularly in eastern ladies wear. The Company largely caters to the quality conscious female buyer and has little competition in this niche.

Revenues Bareezé and Minnie Minors remains a major contributor in revenues which collectively contribute over 50% towards total revenue. Strong growth in revenues was witnessed in 1HFY20, amounting to ~PKR 7.5bln (1HFY19: PKR 6.7bln), a growth of ~11% YoY. The growth in sales was a product of volumetric and price increase as the Company opened up 27 new shops across the Country while it also passed on higher costs to customers by increasing prices.

Margins Gross margin largely remained stagnant (1HFY20: ~45%, 1HFY19: ~44%) though operating margins dropped slightly to ~8.2% (1HFY19: ~8.4%) on the back of higher selling and marketing expenses. In addition to lower operating margins, higher finance cost (1HFY20: PKR 109mln, 1HFY19: 81mln) lead to slight decrease in net margins (1HFY20: 4.1%. 1HFY19: 4.7%) though in PKR terms profit largely remained same (1HFY20: PKR 316mln, 1HFY19: PKR 311mln).

Sustainability Due to COVID-19, the Company was forced to close its shops all over Pakistan from third week of March till 11th May. Sales of Brands was limited to online sales with very few shoppers as online sales remain at nascent stage in Pakistan. Ease of lockdown from 11th May has lead to reopening of shops all over Pakistan for a limited time in a day. However, the complete lockdown on weekends and closure of malls (a major contributor to sales) will significantly impact revenues and performance of the Company.

Financial Risk

Working Capital Sefam's working capital needs mainly emanate from the need to maintain high stocks of finished inventory in order to meet consumer demand at its shops. The Company disclosed stocks as part of the amnesty scheme in June 2019 giving rise to inventory days (1HFY20: 201days 1HFY19: 164 days). This led to a surge in net cash cycle (1HFY20: 178 days, 1HFY19: 140 days). Finished goods inventory is expected to pile up even more due to lockdown due to Covid-19. However, the Company maintains a strong borrowing cushion at trade assets level 72% (1HFY20: 21%) which can be utilized to borrow if the need arises.

Coverages Sefam witnessed a decrease in free cash flows (1HFY20: PKR 398mln, 1HFY19: PKR 459mln) on the back of increased taxation. Consequently, coverages showed deterioration YoY (Interest: 1HFY20: 3.8x, 1HFY19: 6x; Debt coverage: 1HFY20 2.8x, 1HFY19: 3.7x) though remained strong.

Capitalization Sefam has a low leveraged capital structure with total debt of ~PKR 2bln in 1HFY20, comprising largely of short-term financing (~75%) to meet working capital needs. Borrowings also include a loan from directors amounting PKR 347mln. The Company's leveraging ratio currently stands at ~17%.

Credit Rating Scale & Definitions

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Long Term Ratings		Short Term Ratings	
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments	A1+	The highest capacity for timely repayment.
AA+ AA AA-	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.	A1	A strong capacity for timely repayment.
A+ A A-	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.	A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
BBB+ BBB BBB-	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.	A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
BB+ BB BB-	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.	B	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions.
B+ B B-	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.	C	An inadequate capacity to ensure timely repayment.
CCC CC C	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.		
D	Obligations are currently in default.		

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or in anticipation of, a) some material identifiable event and/or b) deviation from expected trend. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating Watch may accompany Outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) cessation of underlying entity, c) the debt instrument is redeemed, d) the rating remains suspended for six months, e) the entity/issuer defaults, or/and f) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Disclaimer: PACRA's ratings are an assessment of the credit standing of entities/issue in Pakistan. They do not take into account the potential transfer / convertibility risk that may exist for foreign currency creditors. PACRA's opinion is not a recommendation to purchase, sell or hold a security, in as much as it does not comment on the security's market price or suitability for a particular investor.
