Rating Rationale and Key Rating Drivers

The ratings reflect the adequate business profile of E-Vision Manufacturing Limited and its established position in the regenerated polyester staple fiber (r-PSF) industry. The Company has identified a niche in the textile industry by manufacturing fine white, black and green regenerated polyester staple fiber and polyester chips using post-consumed polyethylene terephthalate (PET) bottles. This market is relatively new and growing at a fast pace. Management represented that global environmental authorities are also promoting to use r-PSF as against virgin PSF because, manufacturing process of r-PSF consumes less energy and does not deplete natural energy resources. During CY20 revenues of the Company were depressed due to low capacity utilization and global supply chain disruption caused by outbreak of Covid-19. Textile industry as a whole now comprehended recovery and the Company was able to get benefit from higher product demand which is translated into better sales revenue during 1QCY21. Margins of the Company also showed improvements due to efficient raw material sourcing and by reducing expenditures. The Company's financial risk profile remains at moderate level, borrowing mainly comprising of short term for working capital requirement, whereas growth in cash flows resulted into better coverages. To cater the high demand of r-PSF in future the Company is planning for capacity expansions by (a) addition of new 30TPD plant (b) BMR of existing plant. The Company intends to rely predominantly on internally generated cash flows and sponsor's equity contribution without leveraging the capital structure.

The ratings are dependent on upheld sustainable revenues and margins. Meanwhile, maintaining a low leveraged capital structure and strong coverages remain critical. Going forward, better governance framework will be positive for the ratings.

Profile

Legal Structure E-Vision Manufacturing Limited (E-Vision, “The Company”) is an unlisted, public limited concern incorporated in 2013.

Background E-Vision was incorporated in March, 2013, as a private limited company and subsequently converted to public status in September, 2015. Commercial operations began with gross capacity of 30 tons per day which has now expanded to ~60 tons per day.

Operations The Company is involved in the manufacturing and recycling of polyester staple fiber (PSF) using waste of polyethylene terephthalate (PET) bottles or other waste material. E-Vision's rPSF is mainly used in the manufacturing of yarn for woven & knitted fabric for home textile & other garments industry. The Company's production facility is located in Sundar Industrial Estate, Lahore, and consists of two units: washing unit and production unit.

Ownership

Ownership Structure The Company's shareholding is held through an offshore investment company, Marylebone Management Limited, incorporated in the British Virgin Islands. Marylebone Management Limited (owned by Mr. Salman Ganny) holds 60% stake while remaining stake of E-Vision (40%) lies with Mr. Abdul Ghaffar (CEO).

Stability The Company does have a succession plan. In case of death of Mr. Salman Ganny, Marylebone Management Limited and E-Vision will be managed by other family members who have varied experience in business. Family includes his father Mr. Salim Ganny who is an investor and entrepreneur and his wife Mrs. Reema Ganny who has experience in corporate banking.

Business Acumen Mr. Salman Ganny has experience in real estate, steel, engineering and textile sectors. He is currently acting as a Board member in Horizon Steel (Pvt.) Limited, a Karachi-based steel manufacturing company.

Financial Strength Mr. Salman Ganny paternal family is Ganny Rangoonwala and maternal family is Tabani. Both families are reputable business families based in Karachi for over six decades. Mr. Ganny and family have ability and willingness to support the business and for this purpose various guarantees have been issued.

Governance

Board Structure E-Vision's Board of Directors comprises three members. The Board is Chaired by Mr. Ganny. Mr. Abdul Ghaffar (CEO) and Mr. Arif Siddiqui (company CFO), who represents Mr. Ganny, are also on the Board.

Members' Profile Mr. Salman Ganny – Chairman and founder of the company is an investor and entrepreneur based in Pakistan and UAE. Additionally, in Pakistan he holds board position in Horizon Steel Private Limited. Previously he held management positions overseas in Real Estate and Investment companies.

Board Effectiveness Board meetings are held quarterly with full attendance of directors. Meeting packs are shared with directors beforehand which comprise relevant financial data for discussion. Meanwhile, quality of discussion disclosed in meeting minutes has room for improvement. There are no Board committees in place to assist the Board.

Financial Transparency Hassan Farooq & Company are the external auditors of the company. The auditor is QCR rated, however, does not appear on the list of State Bank's panel of auditors. They have expressed an unqualified opinion on the financial statements of the company for the year ended December 31, 2020. The board has also set up an internal audit function.

Management

Organizational Structure E-Vision has a lean organizational structure divided into various functional departments, namely: i) Production, ii) Procurement, iii) Marketing, (iv) Human Resources and Administration and v) Finance. The Manager Finance reports to the CFO – Mr. Arif Siddiqui – while all other departmental heads and managers are reporting to the CEO – Mr. Abdul Ghaffar.

Management Team Mr. Abdul Ghaffar – company CEO – is a Chartered Accountant with over twenty years of experience in various manufacturing concerns including glass, textile and industrial gases companies as well as experience in financial services sector. He is actively involved in day-to-day operations and decision making in the Company. The management team, though small in size, constitutes well-experienced, seasoned individuals.

Effectiveness The Company has formed four management committees to assist decision making. While the Audit Committee and Human Resource Committee convene on need basis, the Management Committee and Procurement Committee meet monthly. Meetings minutes are properly documented. All departmental leads meet with the CEO daily to discuss day-to-day developments and issues.

MIS E-Vision implemented BMA Complete Solutions V 1.2 in 2014 as an ERP solution to streamline the flow of information from all departments. The software provided by M/S Soft Consult comprises modules for inventory management, financial accounting, HR management, sales support and fixed assets management while production management module is being developed.

Control Environment Daily reports regarding the Company's receivables and payables position, purchases and procurement, and bank position are prepared and submitted to higher management. The Company also has a lab on its premises for quality testing of fibers to ensure quality control. Furthermore, an international certification has been acquired by the Company: Global Recycled Standard. Company is also ISO 9001 certified.

Business Risk

Industry Dynamics The recycled polyester staple fiber industry (r-PSF) in Pakistan is growing due to rising local and international demand for the product, driven by its economic viability and friendliness toward the human body in comparison to virgin polyester making it an attractive substitute. R-PSF derives its pricing from the price of virgin polyester fiber. Generally, prices of r-PSF remain at ~75% of the price of virgin polyester fiber. Being derivative of crude oil, their prices fluctuate accordingly, making r-PSF a price volatile product.

Relative Position The r-PSF industry in Pakistan constitutes few players, of which one of the leading players is E-Vision. Its main competitors are Khalis Fiber, Lasani Fiber and Sun Fiber. E-Vision remains the only player in the local industry with an import license.

Revenues The Company's topline clocking in at ~PKR 415mln in IQCY21 (CY20: ~PKR 829mln, CY19: ~PKR 1,239mln), a decrease of ~33% YoY as at Dec-20 because the sales were impacted by the withdrawal of zero rated sales tax policy. The sales mix has historically been dominated by local sales. Revenue is predominantly generated from sale of white r-PSF in local market while the remaining constitutes black r-PSF with a very minor portion of green r-PSF. Export sale also consists of r-PSF chips.

Margins Gross margins of the Company improved in IQCY21: 17.3% (CY20: 12.6%, CY19: 8.9%) on YoY basis primarily due to reduction in raw material prices which were improved due to decline in crude oil price. Similarly operating margins also improved to 14.7% in IQCY21 (CY20: 6.0%, CY19: 4.8%). Finance cost in IQCY21 reached to 10mln CY20: 43mln. There is a net profit of PKR 44mln in IQCY21 (CY20: PKR 6mln).

Sustainability COVID-19 has impacted the performance of the Company. The Company remained closed in lockdown period but the Company is now operating at full capacity. The Company primary export country was Turkey which affected by COVID due to which the exports of E-Vision were affected, however, the local and export orders have improved during this period which is a sign of relief for the Company.

Financial Risk

Working Capital The Company's net cash cycle reached to 137days in IQCY21 (CY20: 186 days, CY19: 101 days) as the import of PET in the form of compressed bottles increased from previous years and they take more time to be converted into finished goods. During COVID-19 the inventory has not piled up because the demand for local orders has not gone down.

Coverages During IQCY21, E-Vision's free cash flows (FCFO) grew YoY to stand at ~PKR 69mln (CY20: ~PKR 62mln, CY19: ~PKR 83mln). However, interest coverage and debt coverage declined to 1.6x in CY20 compared to 1.9x in CY19.

Capitalization At IQCY21, the Company has moderately leveraged capital structure with leveraging ratio of ~45.3% (CY20: 47.2%, CY19: ~39.3%) constituting exclusively of short term borrowings.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
