Rating Rationale and Key Rating Drivers

The ratings take comfort from Global Marketing Service (GMS) reputable business profile in the segment of clinical and medical lab equipment, which serve as a key ingredient in the health diagnostic field. GMS has two primary segments of operations: Clinical and Medical. Clinical division has significant revenue portion and deals with lab diagnostic and testing equipment kits including PCR Covid-19 kits. Due to on-going pandemic situation demand of PCR testing kits has significantly inclined which benefited the Company. The entity has experienced tremendous growth in revenues during FY21 and similar performance is expected to sustain in future which is positive sign for the ratings. Performance of medical division also showed improvement and bodes well with diversification strategy of the entity. Key strategic pillars of GMS are responsibility and responsiveness towards customers need. Going forward the management has intended to merge clinical and medical division as a one unit and planned for corporatization of the entity. Management of GMS has also planned to develop internal audit department along with interim audit review function. The firm is led by Mr. Zafar, Owner, as assisted by other partners, some of whom are long standing with the firm. The firm imports all of their inventory, hence exposed to currency fluctuation and associated pricing risks, Overall financial risk profile is characterized by upright working capital management, comfortable cashflows and coverages, adequate capital base and formal and non-formal leveraging. The growth took positive benefit from large demand related to COVID-19; apart from this, the size also grew independently as pandemic has shifted the focus towards the self well-being, healthcare and medical engineering segments. Reversal of key economy driven challenges; rupee depreciation, inflation will further strengthen the financial risk appetite of the Company.

The ratings are dependent on the firm's ability to effectively utilize its existing capacity and management of financial risk particularly the debt coverages, wherein any significant dilution would be negative. Delivery on the envisaged business and corporate plan is crucial.

Profile

Legal Structure Global Marketing Services (hereinafter referred to as 'the firm' or 'GMS') was incorporated in March 1999 as a firm registered under Partnership Act, 1932.

Background Serving the health industry since 2000, the firm has steadily expanded its line of products and created a presence in various diagnostic markets, attaining a respective stature in healthcare and Research/Life Science Solutions. The firm also runs a cardiac division to provide consumables for cardiac medical devices.

Operations The firm is engaged in supply of pharmaceuticals, healthcare and life science solutions from more than 30 manufacturers around the globe. Firm's focus areas include biomedical investigation, research, life sciences, blood banking, hematology and other medical devices. Corporate head office of the firm is in Islamabad. Corporate, Marketing, Distribution and Storage facilities are located in Rawalpindi.

Ownership

Ownership Structure Mr. Zafar Mehmood holds majority ownership (68%) of the firm. Remaining ownership is held by Mr. Muhammad Ayub (20%) and Mr. Fahad Ahmed Khan (12%). 80% of the ownership of medical division is held by Mr. Zafar, while the remaining 20% is equally held by Mr. Asif Mahmood and Malik Saeed.

Stability The sponsors have drafted a formal partnership agreement. Although, Mr. Zafar and Mr. Ayub have strong business relationship of 20 years, there is a need for formal succession planning in order to ensure future prospects of the firm are taken care of in the hour of need.

Business Acumen The sponsors have business presence of 20 years. Mr. Zafar has set up ViSol group of companies that undertakes the supply of pharmaceuticals, healthcare and life science solutions. ViSol represents strategically placed business hubs providing maximum coverage across GCC, Asia, Africa and North America.

Financial Strength Financial strength of the sponsors is considered adequate as they have been able to finance the business through capital injection. Further, Mr. Zafar has previously forwarded an amount of ~PKR 260mln to the firm as interest-free loan. Additional capital was injected by sponsors in the medical division, about PKR 125 mln in FY20. In FY21, further capital was injected by sponsors of PKR 150mln.

Governance

Board Structure The overall control of the firm vests in two sponsors, Mr. Zafar Mahmood (CEO) and Mr. Ayub (director of operations) who are involved in the decision making tasks for running the company.

Members' Profile The sponsors have expertise of relevant industry. Mr. Zafar also looks after ViSol group of companies in its corporate office in UAE. Both the sponsors hold degree of MBA from University of Azad Jammu & Kashmir and have an experience of 20 years in the business

Board Effectiveness Although compliance of corporate governance is not necessary for the firm but for there is a room for better governance – appointment of independent director on the board. CEO chairs meeting of all departmental heads, held on periodic basis, to review performance and set targets.

Financial Transparency The external auditors of the firm, Zahid Farooq & Co. Chartered Accountants, expressed an unqualified opinion pertaining to annual financial statements for FY20. There is a room for improvement as internal controls of the firm are not subject to any internal audit and further, external auditor of the firm is not listed on SBP's panel of auditors.

Management

Organizational Structure The firm has a well-defined organizational structure, divided into various functional departments including (i) Supply Chain, (ii) Operations, (iii) Sales & Marketing, (iv) IT, (v) Finance, (vi) Quality Management, and (vii) Business Development.

Management Team Mr. Zafar Mahmood, CEO, has industry presence of around 20 years which gives him ample experience and business acumen to run the business successfully. Apart from the firm, Mr. Zafar holds majority shares in ViSole group of companies, which operates in GCC, Asia, Africa and North America. He is accompanied with an experienced management team, which has long association with the firm.

Effectiveness Functions of the management are clear and well defined to effectively achieve its underlying objective. Internal controls are in place and have been effectively implemented including extensive supply chain management procedures to ensure efficient receipt, storage and transport of stock.

MIS The firm has installed SAP 9.3 based software from Ms. Abacus Consulting. Senior management including CEO monitors business performance through key MIS reports.

Control Environment The firm has a separate compliance department that regularly monitors effective implementation of internal controls through compliance audits and reports instances of non compliances to the board on monthly basis. Global Marketing is the first medical firm of Pakistan to earn certification for ISO 9001:2015 & Good Distribution Practice for Medical Devices (GDPMD).

Business Risk

Industry Dynamics Healthcare services industry is considerably a low risk industry in view of limited demand cyclicality. Healthcare services and medical devices are in high demand in view of supportive demographic trends with ageing population, growth in income levels and continuous emergence of new diseases.

Relative Position The firm enjoys exclusive alliances with world leading principals in the In Vitro Diagnostics, Transfusion Medicine, Disposable and other allied segments. Global Marketing has achieved sustained ranking in the top quartile of industry.

Revenues In FY21, topline of the firm clocked-in at PKR 5,203mln (FY20: 2,696mln) up by ~93%, a turnover increase. Major customers for Medical division included NICVD, AFIC, PIAC and HMC. The firm generates revenue in accordance to seasonal trend, as public sector executes major contracts near year end. Revenue brought in by clinical division is almost 3 times that of medical division, however it is minimally translated into profitability.

Margins In FY 21, Gross margins of the firm reached to 36.8% (FY20: 37.7%) -which is mainly due to improved gross profit of the medical division which increased almost 250%- Moreover, Upon a separately conducting vertical analysis of the divisions it is revealed that Medical Div GP Margin is 28% and its Net profit Margin is 10%. Similarly Clinical Div GP Margin is 38% and its Net profit Margin is 26% respectively.

Sustainability With PKR 150mln capital injection after the 125mln injected last year, the firm eyes growth in the newly introduced medical division. In addition to consumables product-line, firm has contracted supply of cardiac medical devices costing PKR 20mln each to AFIC and HMC.

Financial Risk

Working Capital Although the firm maintained its stock in trade, the net working capital days decreased to 65 days (FY20: 72 days) due to timely receipt of receivables and payments to suppliers. The firm has a healthy current ratio over the years as at FY21: 3.6x (FY20: 2.3x).

Coverages Free Cash Flow from operations of the firm stood at PKR 1,267mln (FY20: 619mln). Clinical Div invested PKR 132mln into the Medical div, which explains the increase in debt of MD, however the sponsors do not consider the firm has any significant markup risk, since majority of these debts are secured and considered good. Meanwhile, the firms' finance cost clocked at PKR 122mln at FY21 (FY20: PKR 82mln). The interest coverage ratio clocked at 15.8x as at FY21 (FY20: 9.4x).

Capitalization Total debt of the firm as at FY21 stood at PKR 318mln (FY20: 525mln). Out of which PKR 170mln is an interest free loan advance issued by the sponsor, Mr. Zafar Mahmood, and the remaining amount is obtained from associates of sponsors. The Debt to Debt + equity ratio decreased to 12.8% (FY20: 32.9%) which indicates a constricting room-to-borrow. The non-funded facility of Site & Usance L/C was obtained from JS Bank and is secured against property owned by sponsors.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
