Rating Rationale and Key Rating Drivers

Pakistan's edible oil industry is heavily reliant on imports since oilseeds account for ~80% of the cost of production. Edible oil is the country's 2nd largest import after petroleum. Pakistan's total oil and fats consumption is ~ 5 million metric tons per annum and its per capita consumption is ~22 kg. Consumption is met by 70% (~3.3 MMT) of edible oil import. The remaining 30% (~1.7 MMT) of edible oil is produced from oilseeds (local ~ 3.5MMT, imported ~ 3.1 MMT). Additionally, low domestic oilseed production in Pakistan caused by a distortion in support price mechanism and lower yields have pushed farmers away from oilseed, further increasing dependence on imports. Post Jan-21, demand for edible has picked up due to the reopening of demand avenues. On the supply side, the key raw materials – oilseed and RBD palm oil – are imported primarily from USA, Brazil, and Malaysia. Since Dec-20, raw material prices have continued to inflate amid supply uncertainties and historically low global inventory levels, along with rupee devaluation impacting importers. Subsequently, prices of cooking oil and vegetable ghee have remained on the higher side. Going forward, sales are expected to remain stable. Margins and profitability are expected to improve for players and costs will be offset by the increased demand and in turn prices.

The ratings reflect Pakistan Oil Mills (Pvt.) Limited's ('the Company') developing brand equity for its edible oil brands (Naz, Pak, Sun, and Pure) and its association with a leading industrial group that has ventured into shipbreaking, textile, and real estate. Over the years, the Company has been able to integrate backwards into oilseed crushing along with expanding its refining capacity. With a relatively adequate market share, the Company has experienced growth in its top-line owing to stable demand growth in refined and branded edible oil and meal segments. However, refined and branded edible oil segment remains competitive where volumes and margins are functions of timeliness and prudence of raw materials (Canola oilseed and RBD Palm olein) procurement. The Company procures raw material in bulk due to seasonality constraints, posing an inherent price risk along with storage issues and a high holding period. This has been managed well by the Company and has yielded positive results while augmenting profitability. The Company has a modest capital structure supplemented by strong coverages and a healthy working capital cycle, which keeps the financial risk low. Demonstrated support from sponsors bode well for the Company's ratings.

The ratings are dependent on the management's ability to maintain its growing business volumes while sustaining margins and profitability. Prudent management of working capital and maintaining strong coverages is critical. Effective changes in governance framework would be beneficial for the ratings. Any prolonged deterioration in revenues and/or coverages will adversely impact the ratings.

Profile

Legal Structure Pakistan Oil Mills (Pvt.) Limited ('Pakistan Oil Mills' or 'the Company') was incorporated in April, 1960 as a Private Limited Company.

Background Mr. Muhammad Ishaq and his son, Haji Muhammad Farooq were initially involved in furniture business. In 1960, they set up an edible oil refinery with a production capacity of 7 MT per day. The Company's production facility, located in Kotri, Sindh, currently has oilseed crushing capacity of 400 MT per day and refining capacity of 280 MT of vegetable oil/ghee per day.

Operations Pakistan Oil Mills is primarily engaged in the process of seed filtering and crushing, refining of vegetable oil/ghee by mechanical and chemical processes. The Company primarily sells vegetable oil/ghee, canola meal, and other byproducts including laundry soap. During CY20, the Company produced 27,294 MT of vegetable ghee and 34,110 MT of vegetable oil resulting in capacity utilization of 61%. Furthermore, the Company operates in branded edible oil segment. The major brands of the Company include Naz cooking oil/ghee, Pak cooking oil/ghee, Sun cooking oil/ghee, and Pure cooking oil/ghee.

Ownership

Ownership Structure The Company's major ownership resides with the family of Mr. Haji Muhammad Farooq. The major stake resides with his two sons Mr. Muhammad Masood Pervez (64%) and Mr. Muhammad Usman (33%). The remaining stake resides with Mr. Masood's sons, Mr. Mohsin Masood (2%) and Mr. Abu Bakr Masood (1%).

Stability The Company is completely owned by the sponsoring family. The Company's succession plan is formally documented indicating stability of the ownership structure.

Business Acumen The sponsors have been involved in multiple businesses in edible oil, textile, ship breaking, and automobiles. Mr. Masood Pervez, the CEO of the Company and Fimcotex Industries (Pvt.) Limited, over 30 years of experience in the edible oil and textile segment. He was elected as the president for Hyderabad Chamber of Commerce, Trade & Industries and is a life member of FPCCI. Mr. Usman is the Director of Usman Steels (Pvt.) Limited and has over 3 decades of experience in real estate and ship breaking segments.

Financial Strength The sponsors hold sufficient net worth to support the Company in times of distress. Furthermore, sponsors also benefit from multiple ventures and companies that provide substantial strength.

Governance

Board Structure The Company's BoD comprises three Executive Directors. All three directors are from the sponsoring family. Lack of independent oversight and diversity indicates a room for improvement in the Company's governance structure.

Members' Profile The Board's Chairman, Mr. Masood Pervez, also the CEO of the Company and Fimcotex Industries (Pvt.) Limited, has been associated with the Company since 1978. He was elected as the president for Hyderabad Chamber of Commerce, Trade & Industries and is a life member of FPCCI. Mr. Usman, Director of Usman Steels (Pvt.) Limited, has been associated with the Company for over 3 decades. Mr. Mohsin Masood has joined the Company's Board recently.

Board Effectiveness The Board lacks formal sub-committees. During CY20, there were 4 meetings and attendance remained full. The minutes of Board meetings are adequately documented.

Financial Transparency The external auditors of the Company, Shah and Co. Chartered Accountants, have expressed an unqualified opinion on the financial statements of the Company for the year ended Dec-20. The current external auditors are not QCR rated, however, the management plans to appoint auditors who are QCR rated and on SBP's panel of auditors going forward.

Management

Organizational Structure The organizational structure has been optimized as per the operational needs. The Company operates through four functions: Production, Finance, Sales & Marketing, and Procurement. All functional managers' report to the Company's CEO.

Management Team Mr. Masood Pervez, the CEO of the Company and Fimcotex Industries (Pvt.) Limited, has over 30 years of experience in the edible oil and textile segment. He is assisted by a team of experienced professionals.

Effectiveness There are no management committees in place. Management meets on need basis to ensure efficiency of the Company's operations.

MIS The Company uses an ERP (Oracle) software as per its needs. The software is regularly monitored by an inhouse IT function. Reports are prepared on need-basis for the management and Directors.

Control Environment To ensure operational efficiency, the Company has setup an internal audit function, which implements and monitors the policies and procedures of the Company.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

**The correlation shown is indicative and, in certain cases, may not hold.*

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
