Rating Rationale and Key Rating Drivers

Ultra Pack (Pvt.) Limited ('UPPL' or 'the Company') is primarily offering industrial packaging solutions to cement industry with majority sales to its associated concern "Kohat Cement Company Limited" (having PACRA's assigned ratings: A/A1). UPPL is engaged in the manufacturing & sale of polypropylene bags; product line includes Block Bottom AD-Star Bags, Block Bottom Open-Mouth Bags, Laminated Stitched Bags, and Woven PP Fabric. The ratings reflect Company's emerging market position underpinned by the strong sponsor profile – ANS Capital (Pvt.) Limited. In financial period 2021, the Cement sector's dispatches recorded splendid growth of ~21% augmented by local demand. In view of the infrastructure projects in pipeline at national level, the overall industry's future outlook seems positive. Additionally, packaging industry is diverging towards PP bags as these are less costly compared to kraft paper bags. The price of major raw material in packaging segment is correlated to international oil prices. Volatility in oil prices and exchange rates is a source of risk as market players face difficulty to pass on impact of increased material prices, thus ultimately holding an impact on the profitability of the sector. The production of this sector is closely linked with the demand derived from cement industry. Consequently, the Company's revenue stream is a derivative of its cement bags sales including to its associated entity. UPPL has an installed capacity of ~120mln PP bags / annum. Accordingly, it captures market share of around ~21% in PP bags distribution. The Company's topline is a function of sales channeled through North region of Pakistan. Profit margins of UPPL are dependent on two factors: sales earnings and merchandise cost. The Company has to build strong equity base. Ownership profile of the Company is solely represented by the sponsoring family members. UPPL has executed a sound system of internal control across the organization. Financial risk profile of the Company appears adequate with modest coverages, working capital cycle and cash flows. UPPL's capital structure is moderately leveraged; encompassed LTBs and low equity.

The ratings are dependent on the UPPL's ability to grow its position amidst positive industry environment while improving its proceeds. Prudent management of the working capital, maintaining sufficient cash flows and coverages are imperative for the ratings. Any significant decrease in margins and coverages will impact the ratings.

Profile

Legal Structure Ultra Pack (Pvt.) Limited ('Ultra Pack' or 'the Company'), a subsidiary of ANS Capital is a private limited entity incorporated in 2016.

Background The Company was established in 2016 to offer industrial packaging solutions to cement industry including to its associated concern "Kohat Cement Company Limited." During 2017, the Company was fully operational by using the latest Extrusion & Bag Conversion technologies. Its registered office is located in Sunder Industrial Estate, Lahore.

Operations Ultra Pack is principally engaged in the manufacturing of Polypropylene bags from the plastic granules. The Company's product line includes Block Bottom AD-Star Bags, Block Bottom Open-Mouth Bags, Laminated Stitched Bags, & Woven PP Fabric. The Company has an installed capacity of ~120mln units per annum.

Ownership

Ownership Structure The Company is exclusively owned by the sponsoring family through ANS Capital (Pvt.) Limited (~100%) where, the majority stake of ANS Capital resides with Mr. Nadeem Atta Sheikh (~41.87%). The other major proportion of shareholding is with Mr. Aizaz Mansoor Sheikh (~28.59%). The remaining shareholding (~29.54%) rests with other members of the family.

Stability Ownership structure seems stable as no major change in the shareholding is expected in near future. 100% stake rests with ANS Capital (Pvt.) Limited. However, defined and streamlined shareholding pattern among family members along with formal line of succession can add strength and bring more clarity for practical purposes.

Business Acumen The Sheikh Family (sponsors of the Company) is considered to have strong business acumen. The sponsors have been operating in Pakistan for a number of decades now and expanded its presence by venturing into different industries including cement, paper & packaging, etc.

Financial Strength Kohat Cement Company being the flagship entity of ANS Capital maintains strong financial profile with substantial access to capital markets. Thus, Sponsors' ability to provide support is considered high if need arises.

Governance

Board Structure The board comprises three members, including CEO – Mr. Ibrahim Tanseer and two executive directors – Mr. Omer Aizaz & Mr. Faisal Atta. There are no independent directors on the board. The Company's board is dominated by the sponsoring-family, raising concern on lack of challenge posed on the management, thus hampering effective governance.

Members' Profile All the members involved in the business carry related industry experience and also hold director positions in ANS Capital and Ultra Kraft (Pvt.) Limited. Mr. Ibrahim Tanseer, the CEO of the Company holds 10+ years of experience.

Business Risk

Industry Dynamics Pakistan's packaging industry consists of four major segments: paper, plastic, tinplate and glass. Paper and plastic segments occupy the major share in total market. The packaging industry derives its demand from various industries. The price of major raw material in plastic segment is correlated to international oil prices. Oil prices increased from USD~39/bbl at End-FY20 to USD~71/bbl at End-FY21, demonstrating a hike of 69%. Volatility in oil prices and exchange rates is a significant source of risk ultimately holding an impact on the profitability of the sector.

Relative Position Ultra Pack (Pvt.) Limited manufactures and sells premium quality Polypropylene bags. In the PP bags segment, Syntronics is the largest player in the industry with an installed capacity of ~216mln units followed by Cherat Packaging with capacity of ~180mln units. In polypropylene packaging segment, Ultra Pack holds 21.4% share in the country's production capacity.

Revenues Primarily, the Company derives its revenues from the manufacturing & sale of PP Bags (~98.48%), followed by coated fabric (~0.83%), laminated stitched bags (~0.52%), and weaved fabric (~0.17%). During FY21, topline clocked at ~PKR 2,003mln (FY20: ~PKR 1,880mln, FY19: ~PKR 1,716) registering CAGR of 6.5%. Sales to North region made up ~66.12% (FY20: ~51.98%) of total revenue figure. In 1H FY22, the Company recorded a revenue of ~PKR 1,263mln registering significant growth rate at ~26.1%.

Margins During FY21, the Company's gross margin declined to ~14.2% (FY20: ~16.7%, FY19: ~15.8%) on back of proportionate increase in the prices of raw materials consumed. Operating profit margin also reduced to ~9.5% in FY21 (FY20: ~12.7%, FY19: ~12.2%) due to higher operating expenses year-on-year basis. Resultantly, net margin also reduced in FY21 and stood at ~6.2% (FY20: ~7.8%, FY19: ~7.7%). As at end Dec-21, the Company's gross margin and net margin recorded at ~9.5% and ~3.4%, respectively.

Sustainability Keeping in view the current economic environment of Pakistan and dynamics of packaging industry, the demand for Company's product is going to elevate. The revival of construction sector along with increase in cement demand will have a positive effect on the revenue position. There exists strong competition in the industry due to price sensitivity.

Financial Risk

Working Capital During FY21, the Company's gross working capital days increased to ~163 (FY20: ~139 days, FY19: ~100 days). Average inventory days increased to ~31 days (FY20: ~26 days, FY19: ~31 days). Whereas, average receivable days increased to ~132 days (FY20: ~113 days, FY21: ~69 days) on back of improved level of sales in FY21. Resultantly, net working capital cycle ramped up to ~127 days (FY20: ~108 days, FY19: ~82 days). As at end Dec-21, gross and net working capital cycle of the Company stood at ~107 days and ~80 days, respectively.

Coverages During FY21, the Company's free cash flows from operations (FCFO) marked at PKR 222mln (FY20: PKR 266mln, FY19: PKR 266mln) on account of gross profit incurred PKR 285mln in FY21 (FY20: PKR 313mln, FY19: PKR 270mln). As at end Dec-21, the Company's FCFO clocked at PKR 107mln. Interest coverage ratio of the Company improved to 9.4x in FY21 (FY20: 6.4x, FY19: 6.3) whereas core-debt coverage ratio stood at 1.3x (FY20: 3.5x, FY19: 1.7x).

Capitalization The Company has a moderately leveraged capital structure with a ratio of ~44.4% in FY21 (FY20: ~63.6%, FY19: ~73.4%). Leveraging ratio decreased year-on-year basis as the Company's borrowings declined to PKR 247mln in FY21 (FY20: PKR 265mln, FY19: 330mln) mainly due to diminishing LTBs. Majority portion of the Company's debt is comprised of long-term borrowings (FY21: ~100%, FY20: ~96.98%) acquired from BOP only. Leveraging ratio recorded at ~43.4% in 1H FY22.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
CC	
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

**The correlation shown is indicative and, in certain cases, may not hold.*

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
