Rating Rationale and Key Rating Drivers

The assigned ratings of Ahmed Hassan Spinning Limited (AHSL) reflect the adequate positioning of the Company in the relative universe. The Company specializes in manufacturing and export of yarn of an average count of 21/1 CDD. The installed capacity is 28,152 spindles. Board comprises four members; all the members are from the sponsor family. The Company's management involves professionals looking after the operations of the Company. Sales mix comprises of local and as well as an export with export destinations in China and Korea. Management is eyeing additions in export destinations, going forward. Over the last few years, the Company's topline is following a growing trend. During FY21, the Company's revenues stood at PKR 4.3bln (FY20: PKR 3.6mln). Sales mix, dominated by export sales. The company enjoys an established customer base in the local market which drives the major revenue. Operating profits and net profitability recorded a sizeable improvement in the recent year whilst margins remain good. After a recent demerger from the group company, the management is focusing on harnessing related costs in addition to enhancing capacity. The financial risk matrix displays moderate leveraging and improvement in coverage compared to last year. Going forward, with planned capacity expansion, leverage is expected to increase. Hence, prudent management of affairs remains vital for the rating. The equity base is expected to improve going forward, after the conversion of subordinated debt and increase in share capital. During the period July-December FY21-22, textile exports surged 26 percent YoY, fielding \$9.39 billion in total export remittances, as compared to \$7.44 billion in the same period last year. This is attributable to the increase in demand for textile products internationally and the channeling of export orders toward the Pakistani market. On a YoY basis, the exports of value-added textile items increased in both quantity and value in December 2021. Going forward, the textile sector's outlook is expected to stay positive in the medium term where the demand for textile products is expected to sustain. In the local market, the textile sector has recorded strong performance. Many players have also availed of the TERF scheme announced by the Central Bank. This will lead to the overall leverage of the sector increase; however, on relaxed financing rates. The sustainability of the demand pattern for the current higher orders from Europe and the USA remains essential for the feasible utilization of added capacity by textile players.

The ratings are dependent upon the management's ability to capitalize on growth opportunities in a competitive landscape, operate at optimal level and sustain margins, going forward. The governance framework and financial transparency need improvement. The company is expected to adhere to conservative financial discipline, which would be crucial to ratings.

Profile

Legal Structure The Company was incorporated on: 20th October, 2016 under the Companies Ordinance 1984 as Ahmed Hassan Spinning Limited. After around two years, the Company converted its status from Private Limited to Public Limited Company as Ahmed Hassan Spinning Limited under the Companies Act, 2017 (XIX of 2017) with the same share capital.

Background Ahmed Hassan Spinning Limited was incorporated due to the process of demerger of Ahmad Hassan Textile Mills Limited. Ahmad Hassan Textile Mills Limited was incorporated in Pakistan on December 3rd, 1989 as a Public Limited Company under the repealed Companies Ordinance, 1984.

Operations The core operation of the business resides in the manufacturing of yarn. The Company has 28,152 spindles installed and operational. With this capacity, the company is producing daily 560 to 570 yarn bags as per local and international market requirements.

Ownership

Ownership Structure After the demerger, Ahmed Hassan Spinning Limited (AHSL) is working now independently with the management of Mian Muhammad Parvaiz (Late) family: Mr. Muhammad Aurangzeb, Mr. Muhammad Jahanzaib, Mrs. Waheeda Parvaiz, Mr. Ahmed Hassan and Miss Faiza Parvaiz. Out of them first three shareholders have the major shareholding.

Stability Ahmed Hassan Spinning Limited is a family-oriented Company, therefore ownership rests with the family. The family has no other business except their engagement in Ginning Section as Ahmed Cotton Industries.

Business Acumen The family has been in the textile industry over three decades, which brings extensive technical knowledge into the business. Two of the major sponsors have direct involvement in day-to-day operations of the business.

Financial Strength Ahmed Hassan Spinning is flagship company of the sponsors. Hence, support in case need arises remains inevitable. Recently, the subordinated loan from sponsors is being converted to share capital which is also reflective of the same.

Governance

Board Structure The board comprises four members; all of them are representatives of sponsoring family including the Chairman Mr. Muhammad Aurangzeb and CEO Mr. Muhammad Jahanzaib. The remaining directors includes one executive director Mrs. Waheeda Parvaiz, and one is non-executive director Mr. Ahmed Hassan.

Members' Profile The board members have vast experience and a relatively long association with the Company. The Chairman of the board – Mr. Muhammad Aurangzeb – carries with him fourteen years of experience in the textile sector, having qualification of MBA in Marketing and Finance.

Board Effectiveness The control of the board vests with sponsoring family. Adequate board size and absence of independent oversight result in weak governance.

Financial Transparency M/s ShineWing Hameed Chaudri & Co., Chartered Accountants is the external auditor of the Company. The company's auditors are QCR rated.

Management

Organizational Structure Ahmed Hassan Spinning Limited is working under the supervision of Chairman Mr. Muhammad Aurangzeb and Chief Executive Officer Muhammad Jahanzaib. They are directly overseeing all the operations of the Company from the initial stage to the end process of yarn.

Management Team Mr. Muhammad Jahanzaib, has the qualification of MBA and has vast experience in Ginning section of Ahmad Hassan Textile Mills Limited namely Ahmad Cotton Industries for more than 10 years.

Effectiveness The management of Ahmed Hassan Spinning Limited is focusing on business affairs by working together through arranging meetings on weekly basis or at the end of every month, to do analyses of their achievement performance in accordance with the targets settled.

MIS A fully functional installation of ERP software has been done by the company which has improved the efficiency. The company deploys MS Windows Server 2003 as the operating system. Oracle 9i is being utilized for back-end database work whereas Oracle Developer 6i is used for front-end developer work. While HR MIS was Implemented with ZKTeco and Barcode Reader Machines.

Control Environment The core software can manage comprehensive reports of sales, as well as tax reports, financials, and HRMS. The system, while integrating the business functions of the company, helps the management in timely decision-making. Moreover, it assists the management in establishing a better control environment and achieving efficiency in MIS reporting.

Business Risk

Industry Dynamics During the period July-December FY21-22, textile exports surged 26 percent YoY, fielding \$9.39 billion in total export remittances, as compared to \$7.44 billion in the same period last year. This is attributable to an increase in demand for textile products internationally and the channeling of export orders toward the Pakistani market. On a YoY basis, the exports of value-added textile items increased in both quantity and value in December 2021. Going forward, the textile sector's outlook is expected to stay positive in the medium term where the demand for textile products is expected to sustain. In the local market, the textile sector has recorded strong performance. The relief measures introduced by the State Bank of Pakistan such as deferment of loan payments for one year, low-interest rates, and a salary refinance scheme also provided comfort to the sector. Many players have also availed of the TERF scheme announced by the Central Bank. This will lead to the overall leverage of the sector increase; however, on relaxed financing rates. The sustainability of the demand pattern for the current higher orders from Europe and the USA remains essential for the feasible utilization of added capacity by textile players.

Relative Position Ahmed Hassan Spinning Limited is a small-sized spinning unit and one of the textile ventures of the Ahmed Cotton Industries.

Revenues During FY21, the revenue base of the company augmented by 18.0% to clock in at PKR 4,245mln (FY20: PKR 3,598mln). Exports constituted 65.0% of the total revenue amounting to PKR 2.8bln (FY20: 2.4bln). The gross profit of the company was recorded at PKR 436mln (FY20: PKR 269mln) whereas the operating profit also reflected an improving trend (FY21: PKR 366mln, FY20: PKR 203mln).

Margins The Company's gross margin increases (FY21: 10.3%, FY20: 7.5%) due to adequate implementation of actions/procedures to minimize the impact of a pandemic. Similarly, due to improved sector dynamics and high yarn prices, the operating margin increased (FY21: 8.6%, FY20: 5.7%). The significant decrease in finance cost (FY21: PKR 80mln, FY20: PKR 139mln) led to a high net margin (FY21: 4.9%, FY20: 0.1%) as the Company posted a net profit of PKR 207mln in FY21 (FY20: PKR 5mln).

Sustainability The company has planned to increase its export business from the current portion. Therefore, AHSL is aiming to increase its operational capacity from 28,152 spindles to 32,376 spindles to support the future export business.

Financial Risk

Working Capital The Company meets its working capital requirements through a mix of internal generation and short-term borrowings (STBs). Both, the inventory days and receivable days reflected a downward trend. Consequently, gross working capital days improved to 77 days (FY20: 85 days). Trade payable days also decreased. Hence, net working capital days were reported at 61 days (FY20: 66 days).

Coverages During FY21, the interest coverage ratio improved to 4.7x (FY20: 1.7x) on account of a 58.2% increase in FCFO (FY21: PKR 379mln; FY20: PKR 240mln). The debt coverage ratio also reflected improvement (FY21: 2.5x; FY20: 0.7x). The short-term trade leverage also recorded a positive trend (end-Jun21: 13%, end-Jun20: -8%).

Capitalization Ahmed Hassan Spinning Limited has a moderately leveraged capital structure. The debt-equity ratio reflected an improvement on account of the decrease in borrowings and profitability for the year (end-Jun'21: 50.9%; end-Jun'20: 60.1%). Out of total debt of PKR 846mln as of end-Jun'21, the short-term borrowings debt comprises 72.1%. Strengthening in equity base, over the years, remains essential.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	
BB	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. *The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

Note. This scale is applicable to the following methodology(s):

- a) Broker Entity Rating
- b) Corporate Rating
- c) Debt Instrument Rating
- d) Financial Institution Rating
- e) Holding Company Rating
- f) Independent Power Producer Rating
- g) Microfinance Institution Rating
- h) Non-Banking Finance Companies Rating
