Rating Rationale and Key Rating Drivers

The ratings reflect K-Electric Limited's ("KE" or "the Company") strategic role as Pakistan's only privatized and vertically integrated power utility company. This means the organization undertakes and manages three key areas including Generation, Transmission and Distribution and henceforth supplies electricity to its consumers. KE remains committed to its transformative journey of growth in a competitive energy landscape. KE's approved Power Acquisition Programme (PAP) for FY24 to FY28 outlines a strategic plan for expanding capacity to meet the growing energy demand. Additionally, a rehabilitative transmission and distribution investment plan for USD 2 billion for FY24 to FY30 has also been approved. This plan aims to achieve a 30% growth in the customer base, increase the share of renewable energy by 20%, and reduce power outages by 30%. Additionally, KE has filed an unbundled Multi-Year Tariff (MYT) this time and has submitted separate tariff petitions for Generation, Transmission, Distribution, and Supply. The Generation Tariff was approved in October 2024, while the tariffs for Transmission, Distribution, and Supply are still under review. As a result, the financial statements for FY24 cannot be finalized within the stipulated timeline. It may be further noted that the Company has already apprised its apex regulators, that is, NEPRA, the SECP and PSX on the subject matter. However, continued engagements are being done to expedite the approval process with the aim of circulating the accounts soon. Moreover, to address liquidity gaps resulting from the timing differences between outflows and receipts from power purchasers, KE plans to issue its first Unsecured, Rated, Retail Listed Short-Term Utility Sukuk ("Retail Sukuk" or "Sukuk"). The Sukuk will be offered to investors through a priority allocation with KE consumers receiving preferential treatment as the primary target market. In addition to the standard profit payment method of payment via bank transfer, this sukuk has a unique feature where investors will also have the option to receive their profit payments as adjustments to their monthly KE utility bill, given that they are KE consumers. The instrument will have a tenor of one year and principal will be repaid at maturity.

The outcome of the MYT and its subsequent impact on KE remains pivotal in determining and maintaining the validity of the assigned ratings. Timely completion of the process is imperative for ratings as well as assessment of KE's financial stability and operational performance. Maintaining financial discipline with the issuance of this sukuk remains imperative.

Issuer Profile

Profile K-Electric Limited (the “KE” or the “Company”) was incorporated in 1913 under the Companies Act, 2017 and its shares are listed on the Pakistan Stock Exchange. KE’s current power generation capacity is 2,817MW. In addition to its own generation capacity, KE has arrangements with several IPPs & CPPA-G of 1,600+ MW. KE’s transmission network is interconnected with NTDC and comprises 500kV, 220kV, 132kV, and 66kV transmission lines, 75 grid stations, and 184 power transformers. Being the only vertically integrated company, KE is principally engaged in the generation, transmission and distribution of electric energy under the Electricity Act, 1910 and the Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 (XL of 1997) (the “NEPRA Act”) read with the NEPRA (Electric Power Supplier) Regulations, 2022 and the NEPRA (Electric Power Procurement) Regulations, 2022.

Ownership KES Power Limited, a company incorporated in Cayman Islands and owned in parts by Al-Jomaih Group of KSA, NIG of Kuwait and IGCF of Cayman Islands respectively, presently holds 66.40% shareholding in K-Electric Limited while the GoP maintains a 24.36% stake.

Governance The overall control of K-Electric Limited (“KE” or “the Company”) vests in 13-member Board of Directors (BoD), including the CEO, where majority is nominated by KES Power Limited (KESP), KE’s holding company. In addition to KESP’s nominees, the Board also comprises of the directors nominated by Government of Pakistan (GoP) and an independent director. However, in October 2022, resignation of 3 directors nominated by KESP resulted in casual vacancies on the Board which cannot be filled by the Company as it is restricted from making change in its current Board composition in view of the following: i) An ad-interim order of the High Court of Sindh was passed on 21 October 2022, in the suit filed by Al Jomaih Power Limited & Denham Investments Limited against IGCF SPV 21 Limited and others whereby no change shall be affected in the present Board of the Company. ii) A directive under section 125 of the Securities Act, 2017 was issued by Securities and Exchange Commission of Pakistan on 08 November 2022 according to which the composition of the current BoD of KE shall not be changed, till further orders of the Commission. Further, Mark Gerard Skelton was appointed by the BOD as its Chairman in August 2022. Mark Skelton is a Managing Director with Alvarez & Marsal’s (A&M’s) Advisory practice in London. He has more than 20 years of experience in corporate finance and advisory. His primary areas of concentration are cross border assignments across different legal jurisdictions and waterfall classes. At present, there are four committees at the board level namely, (i) Audit; (ii) Finance; (iii) Human Resource & Remuneration; and (iv) Board Strategy & Project for ensuring the smooth flow of the Board’s functions. Presence of GoP’s nominee directors and an independent director on the Board and its committees brings depth and perspectives to the Board’s conduct and bodes well for the governance. A. F. Ferguson & Company, Chartered Accountants, are the external auditors of the Company.

Management KE’s core business operations are divided into three business segments namely Generation, Transmission & Distribution. These are managed through a well-defined hierarchal structure of qualified and experienced professionals. Mr. Moonis Alvi has been spearheading the Company since he took charge as CEO in June 2018 and Mr. Muhammad Aamir Ghaziani has been leading as the CFO of the Company. The Company is guided by four core pillars: i) Thought Leadership, ii) Knowledge-based Learning, iii) Values, and iv) Social Responsibility. KE’s leadership upholds values of integrity, accountability, and continuous improvement, striving to balance economic growth with environmental sustainability. This commitment to its CARES values drives KE’s journey toward becoming a growth-oriented, sustainable organization. The Company is also in the process of making its transition towards SAP S4HANA. Keeping customer centricity at the heart of everything, these tech solutions have been deployed to keep all business processes efficient and transparent.

Business Risk Pakistan’s power generation in FY-2024 dropped by 1.9% to 127,160 GWh, marking the second consecutive annual decline, driven by higher electricity costs, rising inflation, and reduced economic activity. Hydropower remained the largest contributor, making up 31% of total generation, followed by RLNG and nuclear power, each accounting for 19%. Local coal-based power plants contributed 12%, with the rest supplied by other thermal sources, including imported coal. A small portion comes from renewable resources like wind and solar. KE is the only vertically integrated power utility company responsible for the generation, transmission, and distribution of electricity in Karachi and adjacent areas of Sindh and Balochistan. KE has a registered customer base of ~3.7mln at end-June’24, of which 84.4% constitute residential consumers, 14.9% commercial, Industrial 0.6%, and the remaining comprises of agricultural and public consumers. KE reduced its Transmission and Distribution (T&D) loss to 15.3% in FY23 and is actively working to reduce these losses, moving forward. Drawing from previous MYT experiences, KE has filed separate tariff petitions for its business segments (Generation, Transmission, Distribution and Supply). The Generation Tariff has now been approved by NEPRA for all its power plants for the period post June 2023. The Multi Year Tariffs for Transmission, Distribution and Supply businesses for the period FY 2024 to 2030 are currently under determination of NEPRA and are fundamental for preparation of Financial Statements for the period post June 30, 2023.

Financial Risk KE manages its working capital requirements through a mix of internally generated cash and short term borrowings. Post signing of the power purchase agreement with CPPA-G whereby KE is now authorized to procure upto 2,000 MW of electricity from NTDC, KE has also signed another agreement with GoP for Tariff Differential Subsidy whereby KE can net off the NTDC invoices with the subsidy amount and pay only the differential amount. The arrangement has been secured via a master collection account dedicated for payments to CPPA-G. As per management, the actual position of cashflows and the debt profile of the Company is in a comfortable position and it’s expected that the same trend will continue going forward. The approval of the Investment Plan of PKR 392bln by NEPRA for rehabilitation of the transmission and distribution network of KE is expected to contribute to a surge in debt post finalization of MYT. However, KE has MCA structures that are already used to pay back long term lenders and they will continue to do the same in the future.

Instrument Rating Considerations

About The Instrument KE is in the process of issuing an unsecured, rated, retail-listed short-term Sukuk (the “Retail Sukuk” or “Sukuk”) for up to PKR 3,000 million, which includes a green shoe option of up to PKR 1,000 million. The proceeds from this Sukuk issuance will be utilized to finance KE’s working capital requirements. Investors will be selected based on the priority of allocation, with KE’s consumers given preferential treatment as the primary target market for this offering. The issuance will proceed in phases, with two key contingencies in place: i) A minimum allocation of up to PKR 1,000 million will be allocated to Pre-IPO investors, including KE’s industrial and large commercial consumers, as well as High Net-Worth Individuals (HNWs) registered as Qualified Institutional Buyers (QIBs), and ii) A minimum allocation of up to PKR 300 million to the General Public (excluding Pre-IPO investors). In addition to the standard profit payment method of payments via bank transfers, this sukuk has a unique feature where investors will also be having the option to receive their profit payments as adjustments to their monthly KE electricity bills, given that they are KE consumers. The profit rate will be set at a spread of 20 basis points over a base rate, which will be determined as either the 6-month KIBOR or the 3-month KIBOR, subject to final determination. The instrument will have a tenor of one year and principal will be repaid at maturity.

Relative Seniority/Subordination Of Instrument The sukuk is unsecured and in the hierarchy of creditors, the investors shall rank after the secured lenders/investors of the Company.

Credit Enhancement The instrument is unsecured.

#	Notes
	In the absence of approved MYT, the financial statements for all the quarters of FY24 remain unavailable.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	
BB	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. "C" Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

*The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

Note. This scale is applicable to the following methodology(s):
 a) Broker Entity Rating
 b) Corporate Rating
 c) Debt Instrument Rating
 d) Financial Institution Rating
 e) Holding Company Rating
 f) Independent Power Producer Rating
 g) Microfinance Institution Rating
 h) Non-Banking Finance Companies Rating

Disclaimer: PACRA has used due care in preparation of this document. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA shall owe no liability whatsoever to any loss or damage caused by or resulting from any error in such information. Contents of PACRA documents may be used, with due care and in the right context, with credit to PACRA. Our reports and ratings constitute opinions, not recommendations to buy or to sell.

Rating Team Statements

(1) Rating is just an opinion about the creditworthiness of the entity and does not constitute recommendation to buy, hold or sell any security of the entity rated or to buy, hold or sell the security rated, as the case may be | Chapter III; 14-3-(x)

2) Conflict of Interest

- i. The Rating Team or any of their family members have no interest in this rating | Chapter III; 12-2-(j)
- ii. PACRA, the analysts involved in the rating process and members of its rating committee, and their family members, do not have any conflict of interest relating to the rating done by them | Chapter III; 12-2-(e) & (k)
- iii. The analyst is not a substantial shareholder of the customer being rated by PACRA [Annexure F; d-(ii)] Explanation: for the purpose of above clause, the term "family members" shall include only those family members who are dependent on the analyst and members of the rating committee

Restrictions

- (3) No director, officer or employee of PACRA communicates the information, acquired by him for use for rating purposes, to any other person except where required under law to do so. | Chapter III; 10-(5)
- (4) PACRA does not disclose or discuss with outside parties or make improper use of the non-public information which has come to its knowledge during business relationship with the customer | Chapter III; 10-7-(d)
- (5) PACRA does not make proposals or recommendations regarding the activities of rated entities that could impact a credit rating of entity subject to rating | Chapter III; 10-7-(k)

Conduct of Business

- (6) PACRA fulfills its obligations in a fair, efficient, transparent and ethical manner and renders high standards of services in performing its functions and obligations; | Chapter III; 11-A-(a)
- (7) PACRA uses due care in preparation of this Rating Report. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA does not, in every instance, independently verifies or validates information received in the rating process or in preparing this Rating Report | Clause 11-(A)(p).
- (8) PACRA prohibits its employees and analysts from soliciting money, gifts or favors from anyone with whom PACRA conducts business | Chapter III; 11-A-(q)
- (9) PACRA ensures before commencement of the rating process that an analyst or employee has not had a recent employment or other significant business or personal relationship with the rated entity that may cause or may be perceived as causing a conflict of interest; | Chapter III; 11-A-(r)
- (10) PACRA maintains principal of integrity in seeking rating business | Chapter III; 11-A-(u)
- (11) PACRA promptly investigates, in the event of a misconduct or a breach of the policies, procedures and controls, and takes appropriate steps to rectify any weaknesses to prevent any recurrence along with suitable punitive action against the responsible employee(s) | Chapter III; 11-B-(m)

Independence & Conflict of interest

- (12) PACRA receives compensation from the entity being rated or any third party for the rating services it offers. The receipt of this compensation has no influence on PACRA's opinions or other analytical processes. In all instances, PACRA is committed to preserving the objectivity, integrity and independence of its ratings. Our relationship is governed by two distinct mandates i) rating mandate - signed with the entity being rated or issuer of the debt instrument, and fee mandate - signed with the payer, which can be different from the entity
- (13) PACRA does not provide consultancy/advisory services or other services to any of its customers or to any of its customers' associated companies and associated undertakings that is being rated or has been rated by it during the preceding three years unless it has adequate mechanism in place ensuring that provision of such services does not lead to a conflict of interest situation with its rating activities; | Chapter III; 12-2-(d)
- (14) PACRA discloses that no shareholder directly or indirectly holding 10% or more of the share capital of PACRA also holds directly or indirectly 10% or more of the share capital of the entity which is subject to rating or the entity which issued the instrument subject to rating by PACRA; | Reference Chapter III; 12-2-(f)
- (15) PACRA ensures that the rating assigned to an entity or instrument is not be affected by the existence of a business relationship between PACRA and the entity or any other party, or the non-existence of such a relationship | Chapter III; 12-2-(i)
- (16) PACRA ensures that the analysts or any of their family members shall not buy or sell or engage in any transaction in any security which falls in the analyst's area of primary analytical responsibility. This clause shall, however, not be applicable on investment in securities through collective investment schemes. | Chapter III; 12-2-(l)
- (17) PACRA has established policies and procedure governing investments and trading in securities by its employees and for monitoring the same to prevent insider trading, market manipulation or any other market abuse | Chapter III; 11-B-(g)

Monitoring and review

- (18) PACRA monitors all the outstanding ratings continuously and any potential change therein due to any event associated with the issuer, the security arrangement, the industry etc., is disseminated to the market, immediately and in effective manner, after appropriate consultation with the entity/issuer; | Chapter III | 17-(a)
- (19) PACRA reviews all the outstanding ratings periodically, on annual basis; Provided that public dissemination of annual review and, in an instance of change in rating will be made; | Chapter III | 17-(b)
- (20) PACRA initiates immediate review of the outstanding rating upon becoming aware of any information that may reasonably be expected to result in downgrading of the rating; | Chapter III | 17-(c)
- (21) PACRA engages with the issuer and the debt securities trustee, to remain updated on all information pertaining to the rating of the entity/instrument; | Chapter III | 17-(d)

Probability of Default

(22) PACRA's Rating Scale reflects the expectation of credit risk. The highest rating has the lowest relative likelihood of default (i.e., probability). PACRA's transition studies capture the historical performance behavior of a specific rating notch. Transition behavior of the assigned rating can be obtained from PACRA's Transition Study available at our website. (www.pacra.com). However, actual transition of rating may not follow the pattern observed in the past; | Chapter III | 14-3(f)(vii)

Proprietary Information

(23) All information contained herein is considered proprietary by PACRA. Hence, none of the information in this document can be copied or, otherwise reproduced, stored or disseminated in whole or in part in any form or by any means whatsoever by any person without PACRA's prior written consent
