Rating Rationale and Key Rating Drivers

JS Global Capital Limited (“JSGCL” or the “Company”) is one of Pakistan’s largest and oldest Brokerage houses primarily providing the services of equity brokerage to retail, HNWI, and corporate & institutional clients. Besides this, the Company also offers other services as well which include MTS/MFS and corporate finance. To augment its bottom line, the Company also engages in Ready Buy Future Spread Transactions (RBFS) from time to time, based on market expectations. The business model of equity brokers is inherently prone to market volatility. During CY22, rising inflation and interest rate environment along with political turmoil impaired the investor’s sentiments, resulting in a decline of volumetric activity at PSX. Consequently, the revenue from equity brokerage declined by ~58% during the 9MCY22 to stand at ~PKR 306mln (9MCY21: ~PKR 734mln) due to which the operating profitability remained under stress. Alternate revenue streams including interest income however meant that the bottom line for the Company stood at PKR26mn during 9MCY22. Going forward, JSGCL plans to further solidify its business model with enhancement in market share and diversity in revenue streams augmented by an influx in corporate finance/advisory services. The recent volatility in trading volumes has heightened the exposure to business risk while going forward, capital market activity is expected to remain subdued amidst high inflation and interest rate environment. The assigned ratings incorporate and take comfort from a strong sponsors profile and corporate governance framework. The investment book of JSGCL remains limited to bank placements, RBFS, and other low-risk investments and does not engage in proprietary book investments, limiting the exposure to market risk. JSGCL’s equity stood at ~PKR 2.2bln at end-Sep’22 proving comfort to the assigned ratings.

The ratings are dependent on the management’s ability to sustain and strengthen the revenue base by augmenting consultancy and advisory services. Retaining market share and sustaining profitability from core operations remain critical. Meanwhile, upholding strong internal controls and diligent monitoring of risks is important.

Business Risk

Industry Dynamics Pakistan’s economy during CY22 has remained largely volatile. From international aspects such as the global recession and the Russia-Ukraine war to domestic political uncertainty and flash floods devastating a significant part of the country, investors have had no confidence in the market. Traded volumes have remained low which has affected the top line of the brokerage industry as a whole. Political stability after elections may play a large factor in possibly stabilizing the market; however, the recent increase in policy interest rates may continue to deter investors towards safer fixed-income returns instead of the riskier equity market.

Relative Position The Company stands amongst the top brokerage houses in the country. JSGCL has improved its relative standing during the 9MCY22 in equity brokerage; however, the corporate finance/advisory segment has room for improvement.

Revenues JSGCL’s operating revenue is mainly concentrated in equity brokerage while the corporate finance/advisory department is also in place to augment the revenue streams. Additionally, JSGCL also provides and earns from commodity brokerage and MFS/MTS services. The revenue from equity brokerage declined by ~58% during the 9MCY22 to stand at ~PKR 306mln (9MCY21: ~PKR 734mln).

Cost Structure Due to the decline in core revenue, the operating profitability remained under pressure for 9MCY22. JSGCL reported a net profit of PKR ~26mln in 9MCY22 compared to a net profit of ~PKR 400mln in SPLY. The Company earned a topline of ~PKR 1,061mln during CY21 (CY20: ~PKR 613mln) while profit after tax stood at ~PKR 411mln during CY21 (CY20: ~PKR 207mln).

Sustainability Going forward, JSGCL plans to enhance its footprint in the retail universe. JSGCL is working on a customized mobile app for this purpose and the relevant human resource has also been taken on board.

Financial Risk

Credit Risk The Company has developed and implemented risk management policies and guidelines whereby clients are provided trading limits according to their worth and proper margins are collected and maintained from the clients. The management continuously monitors the credit exposure of the clients.

Market Risk The investment book of JSGCL remains limited to bank placements, RBFS, and other low-risk investments and does not engage in proprietary book investments, limiting the exposure to market risk.

Liquidity Risk The Current Liabilities of the Company stood at ~PKR 3,626mln at end-Sep’22, compared with ~PKR 3,834mln at end-Dec’21. Whereas the current assets stood at ~PKR 5,094mln at end-Sep’22, compared to ~PKR 5,399mln at end-Dec’21.
